General Summary.—There was general and in places heavy rain during the week. The rainfall is still deficient in parts of North Bengal and North Bihar. Rain is urgently needed in the Madhubani subdivision of Darbhanga, in the greater parts of Champaran, and in the Supaul subdivision of Bhagalpur, where transplanting of rice is retarded for want of it. Elsewhere the transplantation of winter rice is generally in full progress. The prospects of all standing crops are favourable. Early rice is being harvested in North and East Bengal. Some damage is reported to have been done by floods to the crops in Burdwan, Bankura, Patna, Gaya and Monghyr. The crops in parts of Palamau are also reported to have been damaged by locusts. Prices are on the whole stationary, though in places they are reported to be still rising slightly. In the distressed districts the prices of the staple food-grain on which the famine wage is based are—Bankura (common rice) 8 to 9⅔ seers, Nadia (common rice) 6½ to 9 seers, Murshidabad (common rice) 7 to 7⅓ seers, Khulna (common rice) 8 seers, Shahabad (common rice) 8 seers and (peas) 10½ seers, Saran (barley) 11 seers, Champaran (Burma rice) 9 seers, Muzaffarpur (barley) 10¾ and (*rahar*) 10½ seers, Darbhanga (common rice) 7 seers and (*makai*) 9 seers, Bhagalpur (common rice) 8 seers, Santhal Parganas (common rice) 7½ to 8 seers, Puri (common rice) 9 to 12 seers, Hazaribagh (rice) 6 to 7 seers and (*mâhua*) 15 to 25 seers, Lohardaga (rice) 6 seers, Manbhum (common rice) 7¾ seers.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermogra and from observations made at 6h., 10h., 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All thermometers are verified and the readings have been corrected to a standard constructed and verified at Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four f above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed the Meteorologi-l Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers.

THE SECOND SCHEDULE ABOVE REFERRED TO—

(1) The endowment hereby created shall be called, after the donor's name, "The Iswar Chandra Charitable Dispensary at Amragori," and its object is and shall be the establishment and maintenance of the said charitable dispensary in the aforesaid village of Amragori.

(2) The Trustees to be appointed under section 5 (1) of Act VI of 1890 to administer the trust shall be a Committee consisting of not less than five and not more than nine members, on whom only and none else the management of the charitable dispensary shall exclusively devolve.

(3) The members of such Committee shall ordinarily be selected from the inhabitants of thana Amta; but if there be any difficulty in obtaining the requisite number of persons competent and willing to serve on the Committee from among the inhabitants of the said thana, the full complement shall be made up by selection from the inhabitants of the sub-division of Uluberia.

(4) The Subdivisional Officer for the time being of Ulubaria shall be asked to be a member of the Committee, and if he accepts office, he shall preside at all meetings of the Committee. If he be not a member of the Committee or present at any meeting, the members present shall elect their Chairman.

(5) The District Board of Howrah, in consultation with the donor, Babu Iswar Chandra Hazra, during his lifetime, shall select and remove the other members of the Committee. In case of any difference between the donor and the District Board the decision of the Commissioner of the Division shall be final. After the death of the donor the duty imposed by this paragraph shall devolve on the District Board alone.

(6) If any member shall absent himself without reasonable ground from six consecutive meetings, the District Board may by resolution remove him, and may appoint a new member in his place. The procedure laid down in paragraph 5 as regards consultation with the donor as well as the provision made therein for any difference between the donor and the District Board shall apply in this case also.

(7) The members shall appoint one of their number to be Honorary Secretary to the dispensary to keep the accounts and conduct all correspondence on behalf of the Committee.

(8) The Committee, with the approval of the District Board, may make rules for the proper management of the dispensary and may hold meetings for the despatch of business at such times and places and may adjourn and otherwise regulate such meetings as they think fit and determine the quorum necessary for the transaction of business, but they shall at all times conform to and abide by any rules relating to the administration of endowments under the Charitable Endowments Act, 1890, which the Governor-General in Council, in exercise of the powers conferred by section 13 of that Act, may from time to time see fit to make. Questions arising at any meeting shall be determined by a majority of votes, and in case of an equality of votes, the President of the meeting shall have a second or casting vote.

(9) The duties of the Committee shall be as follows:—

They shall appropriate and apply the interest of the said Government securities for Rs. 12,000, which shall be paid to them by the Treasurer of the Charitable Endowments for the territories subject to the Government of Bengal as and when the same accrues together with such sum or sums as may be allotted and paid by the District Board of Howrah to the expenditure noted on the margin, or such other scale of expenditure as the said District Board may from time to time approve for the management of the dispensary.

[Fifth Publication.]

The 29th June 1897.

No. 176—Notification.—In exercise of the powers conferred on him by sections XI and XII of Act V (B.C.) of 1864 (The Canals Act), the Lieutenant-Governor of Bengal proposes to pass the following rules in regard to the line of channel connecting the Kurnafuli and the Chandkhali rivers, known in its various parts as Sikalbaha and Murali khals, in the district of Chittagong.

A. D. MCARTHUR, *Colonel*, R.E.,
Secy. to the Govt. of Bengal.

1. Every vessel on entering the above channel shall be liable to measurement by the officer in charge of the toll station for the purpose of ascertaining the amount of toll to be paid.

2. The tonnage of every vessel, whether laden or empty, shall, for the purposes of the *Canals Act* and of these rules, be determined by the following measurements :—

(*a*) The product of half the length of the vessel from stem to stern measured along the water line, multiplied by the interior greatest breath of the vessel, multiplied by the depth from the water line to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.

(*b*) The measurement of the length is to be made in feet, rejecting inches. The measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(*c*) In calculating the amount of toll to be levied, any fraction of 100 maunds less than 50 maunds is to be omitted; and a fraction exceeding 50 maunds is to be charged as 50 maunds only.

3. No raft will be admitted into the channel in excess of 50 feet in length or 5 feet in breadth. No timber, bamboos or grass will be admitted except securely and compactly packed in the form of a raft.

4. Every vessel entering the channel shall be furnished with a ticket on paying the prescribed toll. The ticket will specify the date of entry, the maundage of the vessel and the amount of toll paid.

5. No vessels whatever except such as are employed on works connected with the maintenance or improvement of the channel shall be exempted from paying toll.

6. Every vessel or raft which has paid toll shall be allowed three days to pass through the channel, the days of entering and leaving being both included, and any vessel or raft remaining in any part of the channel longer than the period above fixed shall, for each day in excess of such period, be charged demurrage equal to one-half of the toll paid. Every vessel or raft remaining in the channel more than one month without authority from the Supervisor shall be subject to be summarily removed.

7. Any person infringing any of the above rules, or wilfully interfering in their enforcement, shall be liable, under section XI of the Canals Act, to a fine not exceeding fifty rupees for any one offence.

(1) Babu Nilmani Pal, Fourth Master of the Hooghly Collegiate School (class IV and officiating in class III), acted in class III from the 15th to the 31st March 1897, both days inclusive, *vice* Babu Dwarka Prasad.

(2) Babu Ram Jadu Bhattacharjea, Third Master of the Hindu School (class IV), to act in class III, with effect from the 1st April 1897, *vice* Babu Dwarka Prasad.

(3) Babu Giriwardhari Lal, Sub-Inspector of Schools, Patna, and now Officiating Deputy Inspector of Schools, Gaya (class VI), has acted in class IV from the 15th to the 31st March 1897, *vice* Babu Nilmani Pal, and from the 1st April 1897, *vice* Babu Ram Jadu Bhattacharjea.

This cancels the orders of the 9th March 1897, appointing Babu Giriwardhari Lal to act in class V of the former Subordinate Educational Service, during the absence, on leave, of Babu Dwarka Prasad.

The following promotions in the Subordinate Educational Service are sanctioned with effect from the 25th March 1897:—

(1) Babu Piyari Mohan Chatterjea, Head Master of the Dumka Zilla School (class IV), to act in class III, *vice* Babu Hari Das Banerjea, M.A., who acted as Assistant Inspector of Schools, Burdwan Division, and in class VI of the Provincial Educational Service, during the absence on privilege leave, from the 25th March to the 24th June 1897, of Babu Brajendra Kumar Guha, and who has since been on privilege leave from the 25th June 1897.

(2) Babu Jogeswar Mukerjea, Sub-Inspector of Schools, Sonthal Parganas, and now Officiating Deputy Inspector of Schools in that district (class V), to act in class IV, *vice* Babu Piyari Mohan Chatterjea.

(3) Maulvi Abdul Hai, Fifth Master (Head Maulvi) of the Patna Collegiate School (class VI) to act in class V, *vice* Babu Jogeswar Mukerjea.

(4) Pandit Krishna Pada Vidyaratna, Lecturer on Sanskrit in the Chittagong College (class VII), to act in class VI, *vice* Maulvi Abdul Hai.

(5) Babu Damodar Prasad Sarkar, Sub-Inspector of Schools, Pabna (class VIII), to act in class VII, *vice* Pandit Krishna Pada Vidyaratna.

The 24th July 1897.—Babu Jagannath Rao, Head Clerk of the office of the Inspector of Schools, Orissa Circle (class VII), is allowed leave of absence for four months, under article 372 of the Civil Service Regulations, in extension of the leave for one and half years granted to him by the Inspector.

Babu Jogendra Nath Banerjea, second and now temporary Head Clerk of the office of Inspector of Schools, Orissa Circle (substantively *pro tempore* in class VIII), will continue to act temporarily in the latter appointment, during the absence, on leave, of Babu Jagannath Rao, and until further orders.

The 26th July 1897.—The following promotions in the Subordinate Educational Service are sanctioned from the 1st August to the 30th September 1896, both days inclusive :—

(1) Babu Tarini Kisor Bardhan, Head Clerk, office of the Inspector of Schools, Burdwan Circle (class V), acted in class III, *vice* Babu Bhubaneswar Gupta, on leave.

(2) Babu Beni Madhab Sarkar, Second Clerk, office of the Inspector of Schools, Burdwan Circle (class VI), acted in class V, *vice* Babu Tarini Kisor Bardhan.

(4) Babu Rajendra Lal Bhattacharjea, Clerk in the office of the Assistant Inspector of Schools, Burdwan Division, acted in class VI, *vice* Babu Beni Madhab Sarkar.

Home Department Resolution No. $\frac{9\text{-Judicial}}{774\text{-}784}$, dated 18th July 1894, on the subject of the reorganisation of the Cantonment Magistrates' Department in India.

RESOLUTION.

IN paragraph 7 of the Resolution of the 18th July 1894, it was laid down that applications from Cantonment Magistrates for leave of absence for periods exceeding three months should be made through the Local Government to the Home Department of the Government of India. It was intended that Local Governments and Administrations should deal with applications from Cantonment Magistrates for privilege leave, and that all applications for leave other than privilege leave should be referred for the orders of the Government of India.

2. The intention of these instructions has, however, been misunderstood, and an instance has occurred in which leave, other than privilege leave, for a period not exceeding three months, has been granted by the Local Government without reference to the Government of India. In order to avert all possibility of misunderstanding in the future, the Governor-General in Council is now pleased to direct that all applications for furlough or leave, other than privilege leave, from permanent Cantonment Magistrates, shall in future be made through the Local Government to the Home Department, which will grant the leave, and will also be responsible for sending to Her Majesty's Under-Secretary of State for India the papers in cases in which the grant of leave is based on a medical certificate.

Chief Secy. to the Govt. of Bengal.

Simla, the 9th July 1897.

JUDICIAL.

No. 750.—The following draft of certain rules, which it is proposed to make for all cantonments in British India in exercise of the powers conferred by sections 26 and 27 of the Cantonments Act, 1889 (XIII of 1889), in supersession of the rules published in G. G. O. No. 460, dated 3rd May 1895, is, as required by section 27 of that Act, hereby published for the information of persons likely to be affected thereby, and notice is given that the draft will be taken into consideration on or after the 10th day of August 1897.

Any objection or suggestion which may be received from any person with respect to the draft before the date fixed as aforesaid, will be taken into consideration by the Governor-General in Council.

DRAFT RULES.

Definitions.

1. In these rules,—

(*a*) the expression "bazar" means any land set apart for occupation by natives of India, except the lines of native troops;

(*b*) the expression "regimental bazar" means any bazar under the management of regimental authorities;

(*c*) the expression "infectious or contagious disorder" includes cholera, leprosy, enteric fever, venereal disease and every infectious or contagious disorder;

(*d*) the expression "owner" includes the person for the time being receiving the rent of lands and buildings, or either of them, whether on his own account or as agent or trustee for any person or society or for any religious or charitable purpose, or who would so receive the same if the land or building were let to a tenant; and

(*e*) the expression "street" includes any way, road, lane, square, court, alley, passage or open space, whether a thoroughfare or not and whether built upon or not, over which the public have a right of way, and also the roadway and footway over any public bridge or causeway.

Information to be given of existence of infectious or contagious disorder.

2. Whoever,—

(*a*) being a medical practitioner, in the course of practice, becomes cognizant of the existence of any infectious or contagious disorder in any dwelling, other than a public hospital or dispensary, in the cantonment, or, in default of such medical practitioner,

(*b*) being the owner or occupier of such dwelling, is cognizant of the existence of any infectious or contagious disorder therein, or, in default of such owner or occupier,

(*c*) being the person in charge of, or in attendance on, any person suffering from any infectious or contagious disorder in such dwelling, is cognizant of the existence of such disorder therein,

shall be bound to give information to the Cantonment Authority respecting the existence of such disorder:

Provided that a person not required to give information in the first instance, but only in default of some other person, shall not be held to be bound to give information under this rule if it is shown that he had reasonable cause to suppose that the information had been, or would be, duly given.

Hospitals or dispensaries.

3. (*1*) So far as the funds at its disposal permit, the Cantonment Authority may—

(*a*) provide and maintain, either within or without the cantonment, as many hospitals or dispensaries as may be necessary; or

(*b*) make upon such terms as it thinks fit to impose, a grant-in-aid to any hospital or dispensary, whether within or without the cantonment, not maintained by it.

(*2*) Every hospital or dispensary maintained or aided under this rule shall have attached to it a ward or wards for the treatment of persons suffering from infectious or contagious disorders.

Medical officer to be in charge of hospital or dispensary.

4. A medical officer to be appointed in such manner as the Local Government may direct, shall be in charge of every hospital or dispensary maintained or aided under rule 3.

5. Subject to the control over the Cantonment Fund which is vested in the Local Government by section 23 of the Cantonments Act, 1889, there shall be appointed, for every hospital or dispensary maintained or aided under rule 3, such subordinate establishment as may be necessary.

Subordinate establishments for hospitals or dispensaries.

6. So far as the funds at its disposal permit, the Cantonment Authority shall cause every hospital or dispensary maintained or aided under rule 3 to be provided with—

Medical supplies, appliances, etc.

(*a*) all necessary drugs, instruments, apparatus, furniture and appliances;
(*b*) sufficient cots, bedding and clothing for in-patients; and
(*c*) such further requisites as may be necessary.

7. Every hospital or dispensary maintained or aided under rule 3 shall be maintained in accordance with the rules made generally or specially by the Governor-General in Council, or the Local Government for the conduct of hospitals and dispensaries, or in accordance with the said rules modified in such manner as the Governor-General in Council or the Local Government may think proper.

Application of civil hospital rules.

8. At every hospital or dispensary maintained or aided under rule 3, the sick poor of the cantonment, persons in the cantonment suffering from infectious or contagious disorders and, with the sanction of the Cantonment Authority, any other sick persons may receive medical treatment free of cost, and, if treated as in-patients, shall be either dieted gratuitously or, should the medical officer in charge so direct, granted subsistence allowance on a scale to be determined by the Cantonment Authority:

Free patients.

Provided that the subsistence allowance granted as aforesaid shall not be less than the lowest allowance for the time being fixed for the subsistence of judgment-debtors by the Local Government under section 338 of the Code of Civil Procedure.

9. Any sick person who is ineligible under the last foregoing rule to receive medical treatment free of cost in any hospital or dispensary maintained or aided under rule 3, may, upon such terms as the Cantonment Authority thinks fit to impose, be admitted to treatment in such hospital or dispensary.

Paying patients.

10. If the medical officer in charge of a hospital or dispensary maintained or aided under rule 3, has *primâ facie* grounds for believing that any person living in the cantonment is suffering from an infectious or contagious disorder, he may, by notice in writing in the form set forth in the schedule or in any similar form, call upon such person to attend at the hospital or dispensary at a time to be specified in the notice, and not to quit it without the permission of the medical officer in charge unless and until such medical officer is satisfied, by examination, if necessary, that such person is not in fact suffering, or is no longer suffering from such disorder:

Power to call upon person suffering from infectious or contagious disorder to attend and remain in the hospital or dispensary.

Provided that, if, having regard to the nature of the disorder, or the condition of the person suffering therefrom, or the general environment and circumstances of such person, the medical officer considers the attendance of such person at the hospital or dispensary inexpedient, he may dispense with such attendance and take such measures or give such directions as to him seem fit and proper.

11. If the medical officer in charge of a hospital or dispensary maintained or aided under rule 3 reports in writing to the Commanding Officer of the cantonment that any person having received a notice as provided in rule 10 has refused or omitted to attend at the hospital or dispensary, or that such person having attended at the hospital or dispensary, has quitted it without the permission of such medical officer, the Commanding Officer may, if he thinks it expedient, by order in writing, direct such person to remove from the cantonment within twenty-four hours and prohibit such person from remaining longer in, or re-entering, it without his written permission.

Power to exclude from cantonment.

12. The Cantonment Authority may, by notice in writing, prohibit—

Removal of brothels or prostitutes.

(*a*) the keeping of a brothel, or
(*b*) the residence of a public prostitute in the cantonment or in any specified part thereof.

13. No public prostitute shall be permitted to reside within the limits of any regimental bazar situate in the cantonment.

Exclusion of public prostitutes from regimental bazars.

* * *

14. No person shall, in any street or public place within the limits of the cantonment, loiter for the purpose of prostitution or importune any person to the commission of sexual immorality:

Loitering or importuning for sexual immorality prohibited.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Shahabad, will be put up to sale at the Arrah Collectorate on Monday, the 20th September 1897, corresponding with 9th Ashin 1305 F.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of sale.

1st.—The estates to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchasers of these estate will be considered as the proprietors of the estate, and the entire proprietary right of Government in such estates will be transferred to them subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of cultivators recorded in the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchasers after issue of advertisement, as in the case of original sale.

5th.—The sale of two Kusalpurs, Nos. 1334 and 1335, will be subject to existing leases and to the rights conferred by the settlement proceedings and by laws in force, and purchasers will be bound to respect the rights of such lessees till the expiry of the period of their settlement:—

SURVEY OF INDIA DEPARTMENT;
Calcutta, the 1st July 1897.

A. E. SPRING,
Asst. Surveyor-General,
In charge, Map Record and Issue Office.

REVISED BYE-LAWS.

1. Every new cow-house, cattle-shed and stable constructed on a new site, and every extension of an existing cow-house, cattle-shed and stable to a new site, shall be a detached building, and not within 15 feet of any other inhabited building, and shall be provided with a paved passage behind the manger at least 2 feet in width.

2. Before beginning to build, the sanction of the Commissioners shall be obtained, and with the application a plan of the premises and sections of the building in which it is proposed to carry on the business shall be sent in for approval, and the plan shall show the provision made or proposed to be made for the drainage, lighting, ventilation and water-supply of the same, and shall also furnish a site plan of the locality showing the buildings and streets within 40 feet of the premises.

3. Every cow-house, cattle-shed and stable or building in which an animal is kept shall be subject to section 335, and be properly lighted and ventilated by the owner to the satisfaction of the Commissioners.

4. Every cow-house, cattle-shed, stable or building, etc., shall be well paved by the owner with asphalte, iron, stone or bricks-on-edge with cement-pointing, flag-stones set in cement, or other suitable impermeable material, and shall have a channel or gutter sloping towards a gully or coss-pool which shall be situated outside the shed.

5. Every cow-shed, etc., shall be provided by the owner with an adequate supply of filtered water. If a cistern is used, it shall be situated outside the shed, and its waste-pipe shall terminate in the open air and be cut off from all direct communication with the drains.

6. No wells shall be allowed on the cow-shed premises.

7. Every shed shall be provided on the outside but protected from the rain with an iron bin or other suitable receptacle for keeping dung or other refuse. All cow-dung retained for the preparation of cakes shall be kept in this receptacle, and not allowed to accumulate on the ground.

8. Every person occupying a cow-shed shall keep in it only such number of cows as shall be specified in his license. The space for each cow shall not be less than 500 cubic feet in the case of country cows, and 600 cubic feet for cows imported from the North-Western Provinces and other places, and for buffaloes. In all cases the actual measurements of the sheds shall be taken as the basis of calculation for cubic space; provided that no height of the shed in excess of 15 feet shall be taken into account in estimating the cubic space. The stalls for single cows shall not be less than 4 feet in width, and a double stall for cows shall not be less than 7 feet 6 inches in width. The stall-partitions, if any, shall not extend in front line of the manger and shall leave a clear open space above the manger.

9. Every shed shall be kept clean to the satisfaction of the Commissioners.

10. Every cow-shed, etc., shall be thoroughly flushed and cleansed twice a day; the first time before 7 A.M. each day.

11. Every person occupying a cow-shed shall cause all dung manure to be removed daily in a properly constructed vehicle before 7 A.M.

N. B.—A person who has paid his trade-refuse fees shall be held to have discharged his liability under this bye-law.

12. No person occupying a cow-shed shall allow it to be used for any purpose other than that for which it is licensed, or shall keep or permit to be kept therein any fowl or any pig.

13. Every person occupying a cow-shed shall give notice in writing within 24 hours to the Inspector of the ward in which the cow-house, etc., is situated of the existence of any contagious or infectious or dangerous disease, amongst his cows.

14. These bye-laws shall not, except in special cases, apply to any cow-house in which less than five cows are kept without the express orders of the Commissioners.

15. Every license-holder shall be bound to keep hung up in a conspicuous place in his cow-shed such license and to show it to any legally authorized person requiring its production.

Rule 16.—"Every person occupying a cow-shed shall give notice in writing within 24 hours to the Inspector of the ward in which the cow-house, etc., is situated of the existence of any contagious or infectious or dangerous disease amongst his cows, and shall destroy or allow to be destroyed all milk in his cow-shed which there shall be reason to think has been liable to contamination. The Inspector of the ward, on receiving information of the existence of any contagious or infectious disease in any cow-house, shall give intimation of the fact to the Police Inspector of the section for the purpose of segregating the diseased animals; it shall be the duty of the person occupying the cow-shed to get the cow-house cleansed, disinfected and lime-washed."

Rule 17.—"No person suffering from any loathsome, contagious or infectious disease shall live in or enter any cow-house in which milch cows or milch buffaloes are kept or shall take any part in the conduct of the trade or business of cow-keeper or purveyor of milk; and every person affected with such disease in any cow-house shall remove or shall be removed immediately therefrom, and the part of the cow-house in which the sick person shall have been shall be thoroughly cleansed, disinfected and lime-washed."

WILLIAMS, Chairman.

The 9th April 1897. (316—3)

সংশোধিত উপবিধি।

১। কোন নূতন জায়গায় প্রস্তুত করা প্রত্যেক নূতন গোয়ালঘর, গোমহিষাদির চালা ও আস্তাবল এবং যে গোয়ালঘর, গোমহিষাদির চালা ও আস্তাবল এক্ষণে আছে তাহার প্রত্যেকের কোন নূতন জায়গা পর্য্যন্ত বাড়ান স্বতন্ত্র বিল্‌ডিং হইবে এবং অন্য যে বিলডিঙ্গে লোক আছে তাহার ১৫ ফুটের মধ্যে হইবে না এবং তাহাতে গোমহিষাদির জাব খাইবার যে পাত্র থাকে তাহার পশ্চাদ্দিকে অন্ততঃ ২ ফুট চওড়া পাকা পথ করিয়া দিতে হইবে।

২। প্রস্তুত করিতে আরম্ভ করিবার পূর্ব্বে কমিশনরের মঞ্জুরি লইতে হইবে। যে প্রেমিসে এবং যে বিল্‌ডিঙ্গে কার্য্য চালান হইবে দরখাস্তের সহিত সেই প্রেমিসের এবং সেই বিল্‌ডিঙ্গের সেকশনের এক খানি নক্‌শা অনুমোদনের নিমিত্ত পাঠাইতে হইবে, এবং তাহার জল নিকাশের, আলোর, বাতাস খেলিবার ও জল সরবরাহের যে বিধান করা হয় বা বিধান করিবার প্রস্তাব করা হয় ঐ নক্‌শায় তাহা দেখাইতে হইবে এবং উহাতে ঐ পল্লীরও নক্‌শা দিতে হইবে। ঐ প্রেমিসহইতে ৪০ ফুটের মধ্যে যে সমস্ত বিলডিং ও ষ্ট্রীট আছে পল্লীর নক্‌শায় তাহা দেখাইতে হইবে।

৩। যে গোয়ালঘরে, গোমহিষাদির চালায় ও আস্তাবলে কিম্বা বিল্‌ডিঙ্গে কোন জন্তু রাখা যায় তাহা ৩৩৫ ধারার নিয়মাধীন হইবে ও কমিশনরদের সন্তোষজনক হয় মালিক তাহাতে আলোর ও বাতাস খেলিবার এরূপ উপযুক্ত উপায় করিয়া দিবে।

৪। মালিক প্রত্যেক গোয়ালঘর, গোমহিষাদির চালা, আস্তাবল বা বিলডিং প্রভৃতির মেজে আন্ডাশট, লোহা, পাতর কিম্বা ইট দিয়া খাদরি করিয়া সীমেণ্ট দিয়া তাহার বাঁইন মারিয়া, সীমেণ্টে ফ্লাগ ষ্টোন বসাইয়া কিম্বা যাহাতে জল প্রবেশ করিতে পারে না এমন কোন উপযুক্ত দ্রব্য দিয়া ভাল করিয়া পাকা করাইয়া দিবে এবং ময়লার গর্ত্তের দিকে গড়ানিয়া নালা করাইবে ঐ ময়লার গর্ত্ত চালার বাহিরে থাকিবে।

৫। মালিক প্রত্যেক গোয়ালঘর প্রভৃতিতে যথেষ্ট পরিষ্কৃত জল যোগাইবে। জলাধার বা ট্যাঙ্ক রাখা হইলে তাহা চালার বাহিরে থাকিবে এবং তাহার ওয়েষ্ট পাইপ ফাঁকায় শেষ হইবে ও সাক্ষাৎ সম্বন্ধে ড্রেনের সহিত তাহার যোগ থাকিবে না।

৬। গোয়ালবাড়ির প্রেমিসে পাতকুয়া করিতে দেওয়া হইবে না।

৭। প্রত্যেক চালার বাহিরে যে খানে বৃষ্টির জল না পড়িতে পায় এমন স্থানে গোবর বা অন্য আবর্জনা রাখিবার জন্যে লোহার বিন্ বা অন্য উপযুক্ত পাত্র রাখাইয়া দিতে হইবে। ঘুঁটে করিবার জন্যে যত গোবর রাখা হয় তাহা এই পাত্রে রাখিতে হইবে, মাটিতে জমা করিতে দেওয়া হইবে না।

৮। গরুর চালার দখীলকারের লাইসেন্সে যত গরুর কথা লেখা থাকে সে তথায় কেবল ততগুলি গরু রাখিবে। দেশী গরু হইলে এক একটা গরু থাকিবার স্থান ৫০০ ঘন ফুটের কম হইবে না এবং উত্তর পশ্চিম-প্রদেশ বা অন্যান্য স্থানহইতে আনীত প্রত্যেক গরুর স্থান ও প্রত্যেক মহিষের স্থান ৬০০ ঘন ফুটের কম হইবে না। সকল স্থলেই চালার প্রকৃত পরিমাণ ধরিয়া ঘনফুটের হিসাব করিতে হইবে। কিন্তু ঘন ফুট হিসাব করিবার সময় চালার ১৫ ফুটের অধিক যে উচ্চতা থাকে তাহা ধরা যাইবে না। এক একটা গরুর থাকিবার স্থান ৪ ফুটের কম প্রশস্ত হইবে না, ও যোড়া গরু থাকিবার স্থান ৭ ফুট ৬ ইঞ্চির কম হইবে না। থাকিবার স্থানের বিভাগ থাকিলে তাহা জাব খাইবার পাত্রের সম্মুখ লাইনে থাকিবে না এবং জাব খাইবার পাত্রের উপর খানিকটা খোলা থাকিবে।

৯। প্রত্যেক চালা কমিশনরদের সন্তোষজনকরূপে পরিষ্কার রাখিতে হইবে।

১০। প্রত্যেক গরুর চালা প্রভৃতি দিনে দুইবার ভাল করিয়া ধুইতে ও পরিষ্কার করিতে হইবে। প্রতিদিন সকালে ৭ টার পূর্ব্বে প্রথমবার ধুইতে ও পরিষ্কার করিতে হইবে।

১১। গরুর চালার প্রত্যেক দখীলকার উপযুক্তরূপে প্রস্তুত করা গাড়িতে প্রতিদিন সকালে ৭ টার পূর্ব্বে সমস্ত গোবরের সার স্থানান্তর করাইবে।

মন্তব্য—যে ব্যক্তি আবর্জনা ফেলিবার ফী দিয়াছে এই উপবিধিমতে তাহার আর দায়িত্ব থাকিবে না এইরূপ বিবেচনা করা যাইবে।

১২। যে জন্য গরুর চালার লাইসেন্স দেওয়া হয় ঐ চালার দখীলকার তাহা ভিন্ন অন্য কোন কাজের জন্য উহা ব্যবহার করিতে দিবে না। এবং সেই দখীলকার তথায় কুক্কুটাদি পক্ষী কিম্বা শূকর শাবক রাখিবে না এবং রাখিতে দিবে না।

১৩। গরুর মধ্যে কোন সংক্রামক বা স্পর্শাক্রামক বা সঙ্কটজনক রোগ উপস্থিত হইলে যে ওয়ার্ডে গরুর চালা প্রভৃতি থাকে, চালার দখীলকার সেই ওয়ার্ডের ইনস্পেক্টরের নিকট ২৪ ঘণ্টার মধ্যে তাহার লিখিত নোটিস দিবে।

১৪। যে গোয়াল ঘরে ৫টা গরুর কম গরু রাখা হয় বিশেষ বিশেষ কারণ ছাড়া অন্য কারণে কমিশনরদিগের স্পষ্ট আদেশ ব্যতীত সেই গোয়ালঘর সম্বন্ধে এই সকল উপবিধি খাটিবে না।

১৫। প্রত্যেক লাইসেন্সধারী আপন গরুর চালার কোন প্রকাশ্য স্থানে লাইসেন্স টাঙ্গাইয়া রাখিতে বাধ্য হইবে এবং আইন অনুসারে ক্ষমতাপ্রাপ্ত কোন ব্যক্তি তাহা দেখাইতে বলিলে দেখাইতে বাধ্য হইবে।

১৬ বিধি। গরুর মধ্যে কোন সংক্রামক বা স্পর্শাক্রামক বা সঙ্কটজনক রোগ উপস্থিত হইলে গরুর চালা প্রভৃতি যে ওয়ার্ডে থাকে গরুর চালার দখীলকার সেই ওয়ার্ডের ইনস্পেক্টরের নিকট ২৪ ঘণ্টার মধ্যে তাহার লিখিত নোটিস দিবে। ও তাহার গরুর চালার মধ্যস্থিত যত দুগ্ধ দূষিত হইয়াছে বলিয়া বিবেচনা করিবার কারণ থাকে তাহা নষ্ট করিবে কিম্বা নষ্ট করিতে দিবে। কোন গোয়ালঘরে সংক্রামক বা পর্শাক্রামক রোগ উপস্থিত হওয়ার সংবাদ পাইলে ওয়ার্ডের ইনস্পেক্টর রোগগ্রস্ত জন্তু পৃথক করিবার নিমিত্ত সেই সেকশনের পোলীসের ইনস্পেক্টরকে ঐ কথা জানাইবেন। গোয়ালঘরের দখীলকারকে গরুর চালা পরিষ্কার করিয়া দিতে হইবে, দোষ শূন্য করিয়া দিতে হইবে এবং কলি ফিরাইয়া দিতে হইবে।

১৭ বিধি। যে গোয়ালঘরে দুগ্ধবতী গরু বা দুগ্ধবতী মহিষ রাখা হয় সেই গোয়ালে ঘৃণাজনক, সংক্রামক বা স্পর্শাক্রামক রোগগ্রস্ত কোন ব্যক্তি থাকিবে না ও যাইবে না, এবং ঐরূপ ব্যক্তি গোয়ালার কিম্বা দুগ্ধ সরবরাহ করিবার কার্য্য করিবে না। গরুর গোয়ালে উক্ত রোগগ্রস্ত কোন ব্যক্তির এইরূপ কোন রোগ হইলে সে তৎক্ষণাৎ সেখান হইতে সরিয়া যাইবে অথবা তাহাকে তৎক্ষণাৎ সেখান হইতে সরাইয়া দিতে হইবে। গরুর গোয়ালের যে অংশে পীড়িত ব্যক্তি ছিল সেই অংশ ভাল করিয়া পরিষ্কার করিতে, দোষশূন্য করিতে ও কলি ফিরাইয়া দিতে হইবে

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876 :—

CHINA SEA—TUNG HAI OR EASTERN SEA.

Non-existence of nine fathoms bank.

WITH reference to Notice to Mariners No. 238, dated 20th November 1896, issued by this office, the British Admiralty has given further notice (No. 340 of 1897) that information has been received from the Commander-in-Chief on the China Station, dated 23rd April 1897, that H.M.S. *Plover* sounded over an area of 4 miles in every direction around the position given and found no indication of any extension or shoaling of the Great Yang Tse bank, or shoal, in the vicinity. As the nature of the bottom was reported to be black mud, and the bank if existent cannot therefore be small, the reported soundings of 9 fathoms have been expunged from the Charts.

Ocean Ranger reef.

THE following Notice to Mariners (No. 310 of 1897) issued by the British Admiralty is republished :—

With reference to Notice to Mariners, No. 110 of 1892, on a dangerous reef reported by the Master of the barquentine *Ocean Ranger*, situated in lat. 18° 44′ S., long. 157° 2′ E., and on which the sea was observed to break heavily :—

H.M. Surveying-vessel *Penguin* searched for this supposed danger in 1894, and discovered a bank of from 800 to 1,000 fathoms in depth situated between the parallels of 18° 48′ and 19° 5′ South latitude, and the meridians of 156° 40′ and 157° 3′ East longtitude, and with depths of from 1,500 to 1,800 fathoms around, but no shallower soundings could be obtained.

During the search, and whilst obtaining a sounding of 1,713 fathoms, a considerable tide rip was observed extending about 3 miles in a north and south direction, which might have been mistaken for breakers, and some such phenomenon probably was the origin of the report made by the Master of the *Ocean Ranger*.

In order to further investigate the matter, some inquiries respecting the original report were addressed to the Master of the *Ocean Ranger* through the Marine Department at Wellington, New Zealand, but a reply has been received that Mr. Goodman, the Master of the vessel in 1892, has died, and that the log books cannot be found.

Viewing all the circumstances of the case, and considering that such a tide rip as seen from the *Penguin* may have been reported as a danger by the *Ocean Ranger*, and further, that no soundings were taken or other attempt made to verify the existence of this supposed danger, it is considered not to exist, and has, consequently, been expunged from the Admiralty charts.

IRRIGATION OPERATIONS OF CANALS IN BENGAL DURING THE RABI SEASON OF 1896-97.

No. 834*I*.

GOVERNMENT OF BENGAL—IRRIGATION DEPARTMENT.

Dated Calcutta, the 22nd July 1897.

RESOLUTION.

READ—

Statement No. II, showing the crops irrigated in canal districts in Bengal during the *rabi* season of 1896-97.

Letter No. 144*I*., dated 12th May 1897, from the Government of India, Public Works Department, ordering the discontinuance of Statements Nos. I and III, the former showing the irrigation and rainfall in Canal districts of Bengal, and the latter showing the crops irrigated by canals in Canal Divisions.

OBSERVATIONS.—The area irrigated in the *rabi* season of 1896-97 was 236,231 acres, against 125,137 acres in 1895-96, showing an increase of 111,094 acres, or 188·77 per cent.

2. The increase took place in the areas commanded by all the canal systems from which *rabi* irrigation was done. From the Sone Canals the increase was 99,255 acres, from the Orissa Canals 7,394 acres, and from the Eden Canal 365 acres. From the Saran Canal, which was closed up to the end of the *kharif* season of 1896-97, an area of 4,080 acres was irrigated during the *rabi* season.

The total area of *rabi* irrigated in 1896-97 is the largest on record since the opening of the canals for irrigation. In the Sone Circle the enormous

a keen demand for canal water that the supplying capacity of the canals was found inadequate to meet it in full, and consequently many applications had to be rejected. In the Orissa Circle the increase was due to new areas of *dulwa* rice having been brought under irrigation owing to the failure of the autumn or *sarud* rice from the prolonged floods of July and August. The increase in the Burdwan and Hooghly districts irrigated by the Eden Canal was attributable to the scanty rain-fall. In the area commanded by the Midnapore Canal there was no demand for canal water during the *rabi* season.

3. The principal crops irrigated from the Sone Canals in the season were sugarcane, wheat, barley and other cereals, gram and other pulses, indigo, opium, mustard and miscellaneous other crops. In sugarcane, the area increased from 23,497 acres in 1895-96 to 26,928 acres in 1896-97; in cereals from 64,646 acres to 111,926 acres, and in pulses, opium, and mustard, and other miscellaneous crops it was 37,366, 2,122, 421, and 35,630 acres, against 15,526, 1,423, 377, and 8,897 acres, respectively, in 1895-96.

In the Burdwan and Hooghly districts the *rabi* crops irrigated from the Eden Canal were sugarcane, potato and onion, the area covered by them being 2,250 acres, against 1,885 acres in 1895-96.

The area irrigated from the Orissa Canals was 15,303 acres, against 7,909 acres in 1895-96; the principal crops were rice, gram, cotton and indigo, of which rice alone covered an area of 14,803 acres, against 6,126 acres in 1895-96, showing an increase of 8,677 acres. The total of the three other crops was 475 acres only, against 1,056 acres in 1895-96, showing a decrease of 581 acres.

4. The details of the increase or decrease in the irrigation of the *rabi* crops from each canal during the year 1896-97 compared with the previous year are given in the following statement :—

Canals.		Areas irrigated in Rabi season.		More.	Less.

Order.—Ordered that this Resolution and the Rabi Statement No. II and the Annual Statement No. II be published in the Supplement to the *Calcutta Gazette*, and that copies of this Resolution and of the statements be submitted to the Government of India, Public Works Department, for information.

Ordered also that copies of this Resolution and of the statements be forwarded to the Commissioners of the Orissa, Burdwan and Patna Divisions; the Collectors of the Cuttack, Balasore, Midnapore, Burdwan, Hooghly, Gaya, Patna, Shahabad, and Saran districts; the Superintending Engineers of the Orissa, South-Western, and Sone Circles; and the Examiner of Public Works Accounts, Bengal, for information.

FAMINE RELIEF.

No. 1471Fam.—The 27th July 1897.—The following paper is published for general information.

M. FINUCANE,
Secy. to the Govt. of Bengal.

No. 1449Fam., dated Calcutta, the 22nd July 1897.

From—M. FINUCANE, Esq., Secretary to the Government of Bengal, Revenue Department,

To—The Secretary to the Government of India, Revenue and Agricultural Department.

IN continuation of this Government's letter No. 652T.R. (Fam.), dated the 21st June 1897, I am directed to submit, under section 29 of the Bengal Famine Code, the following report on relief operations in this Province during the four weeks ending 26th June 1897. Besides the usual famine statements A and B, a statement is appended showing the rainfall in the affected districts from 1st to 30th June, in comparison with the normal fall for that month. Copies of the Patna Commissioner's two reports for the month, No. 1436F.G., dated the 24th June 1897, and No. 1542F.G., dated the 10th July 1897, are herewith submitted. I am also to enclose famine maps of the districts noted on the margin. As regards the Patna Division, there was no change in the distressed areas in any of the five affected districts, and the map submitted for the month of May holds good for the period now under report.

Manbhum, Palamau, Hazaribagh, Nadia, Khulna, Murshidabad, Sonthal Parganas, Puri and Bankura.

2. *Patna Division.*—The satisfactory condition of the district of Patna was changed somewhat for the worse by the heavy rain which fell on the 24th and 25th June. During the 24 hours ending at 8 A.M. on the 25th, 13·8 inches were recorded at Bankipore, 19·64 inches at Dinapore, and 11·2 inches at Bikram. The total falls recorded for the week ending 26th June are—Bankipore 23·51 inches, Dinapore 27·81 and Bikram 23·56. An area of 150 square miles with a population of 170,000 in the Sadar and Dinapore subdivisions was flooded, but most of the water ran off within a few days, and little damage was done, except that some early-sown Indian-corn was lost. There was, happily, still ample time for resowing. Prices remained fairly steady. The Bankipore poor-house was kept open, and the inmates numbered 162 against 123 at the end of May. The rain was less heavy in Gaya, the total for the week being 10·38 inches; the condition of this district remained good. Prices were stationary and agricultural operations in full swing. Eight kitchens and poor-houses were open. Returns have been received for six only, in which a daily average of 1,301 persons were fed against 515 in the latter half of May. Public health was on the whole good in both districts.

The following paragraphs deal with the five districts of this Division in which relief operations on an extensive scale were in progress:—

3. The Officiating Lieutenant-Governor, starting from Calcutta on the 28th June, visited the districts of Darbhanga, Saran and Muzaffarpur. In consequence of urgent business in Calcutta, His Honour had to return to Calcutta on the 4th July, leaving the Revenue Secretary with the Commissioner behind to visit the Champaran district. During the course of his tour Mr. Stevens had an interview with Mr. Higham, C.I.E., at Darbhanga, where he discussed with that officer the system of relief works and of administration of gratuitous

relief in Bihar. As has been separately reported to the Government of India in my letter No. 1398Fam., dated the 17th July 1897, the result of His Honour's interview with Mr. Higham and of his own personal enquiries and observation was to fully satisfy him that gratuitous relief was not being too freely given, and that relief works had been conducted in an efficient and economical manner, and had not competed or interfered with private works.

4. *Rainfall and prospects of crops.*—The first part of the period under report was a time of great anxiety and of more acute and increasing distress than any of the preceding periods, since the commencement of famine. The Commissioner wrote as follows in his report for the first-half of the month :—

"On relief works the numbers have risen except in Shahabad, where the numbers have always been small, and in Muzaffarpur and Darbhanga, where the Muharram festival and heavy rain on the 11th instant drew off considerable numbers. In the other districts even these counter attractions failed to check the swelling of the numbers. Gratuitous relief has advanced everywhere in spite of the additional care with which the lists are now scanned and the incessant inspection to which they are subjected. The numbers in kitchens and poor-houses rose, and it is noticed that many who have hitherto held aloof have now given in and sought relief."

On the 10th June and the day following, and again on the 16th June, there was general rain throughout the Division. Slight rain continued to fall, except in Gaya and Darbhanga, until the downpour of the 23rd, 24th, and 25th, which caused floods in the district of Patna as already stated, and also in Saran. In the latter district an area of about 800 square miles was inundated for three days and then the floods subsided rapidly; it is stated by the local officers that a good deal of growing maize has been destroyed and that the fields will have to be resown. The break in the rains, which commenced on the 26th June, or the last day of the period under report, continued till the 6th July. During this period the weather was extremely close; there was a dense haze, and for part of the time a west wind blew. These conditions caused serious apprehension, which has been removed by the showers which have since fallen, except in the greater part of Champaran and in the Madhubani subdivision of Darbhanga, where rain is still urgently needed. The Commissioner, writing on the 10th July, says :—

"Crop prospects are, however, still fairly good; the *bhadoi*, save so much of it as has been burnt by the west wind or destroyed by floods, is doing well and promises an early crop: a great deal of *rahar* has been sown this year and at an earlier date than usual, the raiyats remembering how good a crop it gave in the past year: the sowing of rice and the preparation of seed-beds have been somewhat retarded in places by the scanty rainfall, but as a whole is up to date. We are now at the end of *Asarh*, and are just out of the *Ardra* asterism, which is the great asterism for sowing: the two next, *Punarbas* and *Pukh*, are devoted to transplanting, though some sowing may be done to the end of *Punarbas*, *i.e.*, till about the 15th July, Indigo has been greatly benefited by the rain, though some has been lost by inundation, and manufacture with its attendant operations is giving plentiful employment all over the northern districts of the Division.

With regard to Champaran in particular, Mr. Bourdillon wrote—

"The crop prospects are good so far, provided that rain falls regularly during the current month. It is reported that three-fourths of the area in Bagaha and Hardih still remained unploughed when Mr. Macpherson (the Collector) was there in the last week of June. As very large advances under the Agriculturists' Loans Act and large donations from the charitable fund have been made in that area, it is clear that there is no want of means there to buy seed and pay for labour, but the earth has not yet been sufficiently drenched, and, moreover, in this tract sowing takes place later than elsewhere: *bhadoi* in its ordinary sense of maize and different millets is not grown there, but in their place early rice (*satiJhan*) and *marua*, while the main crop is the winter rice, the seed-beds of which should be sown at once."

5. *Area and population affected.*—As stated in paragraph 1 above, there was no change under this head.

6. *Numbers on relief.*—The numbers and percentages of population on relief are shown below from the first-half of April:—

The numbers given in this table are as shown in the weekly telegraphic reports published in the *Calcutta Gazette*, corrected up to date. The marked reduction in the numbers on relief was almost entirely among relief workers, and was due to the advent of the rains during the second half of the month. As soon as the relief labourers found employment in the fields, they left the relief works of their own accord.

7. *Relief works.*—The number of works open on the 26th June was as follows:—

	Under Civil Officers.	Under the Public Works Department.	Total.
Shahabad			
Saran			
Champaran		33	
Muzaffarpur		26	
Darbhanga		51	
Total		110	

At the end of May the total number of works open was 429, of which 316 were under the Civil Officers and 113 under the Public Works Department. In Saran there were only 12 works under the control of the Public Works Department employing an aggregate of 3,403 persons, and these have now been closed or made over to the Civil Officers.

The following statement compares the numbers on Government relief works at the end of June with those at the end of May:—

* These figures have been reproduced from column 10 of Famine Statement A.

The increase above shown in the number of male units on daily and wages irrespective of task was due mainly to the Jubilee holidays on the 21st and 22nd June, for which days all who were present on Saturday, the 19th, received two days' wages, and were shown as on daily wages irrespective of task.

The following figures for relief-workers are taken from the weekly telegraphic reports:—

	29th May.	5th June.	12th June.	19th June.	26th June.
1	2	3	4	5	6

The following table shows the results of task-work as regards outturn, wages and cost in the second-half of May and in the corresponding period of April:—

Darbhanga	1 6·8	1 6½	1 7½	1 7½	40	40½	2 6 7	2 8 4

The small variations shown by the figures relating to outturn and cost rate per 1,000 cubic feet were due generally to work in tanks far advanced and therefore with long lead and lift. The slight falling off in the outturn of work in the district of Champaran is explained in the following extract from the Collector's report for the second-half of the month:—

"There was a falling off in the outturn on task works under the Public Works Department, which is attributable to a reduced task for weakly people being insisted on, and to more of the works being tanks. During the fortnight work went on on only 39 civil tanks against 48 in the preceding fortnight, but on 5 Public Works tanks against 2. As explained in previous reports, the comparatively low outturn on Civil Agency Works as compared with those under the Public Works Department is fully accounted for by the fact that no less than 34 out of the 48 works on which work went on during the fortnight under the former Department were tanks, while only 5 out of the 32 Professional works belonged to this category. Another reason is that more attention is paid to fixing suitable tasks for D class labourers on Civil than on Professional works. Only 74 out of 5,802 D class labourers are shown as such in the returns of the Public Works Department. Mr. Higham expressed the opinion that the task set and obtained in this district was satisfactory, and a sufficient test of distress justifying relief by Government. I understood from him that it was better than was being got in other Provinces he had visited, and that the proportion of carriers to diggers was more efficiently regulated."

8. *Piece-work system.*—The system of piece-work was still confined to the Tribeni canal and the Bettiah-Bagaha Railway in Champaran, to the Baghmati

and Bya canals in Muzaffarpur, and to the Sakri-Jaynagar Railway in Darbhanga. The following table gives the statistics :—

The rate allowed for piece-work on the Bya canal in Muzaffarpur was found to be too low and has since been raised.

The Collector of Champaran writes :—

"The average wage actually earned, namely annas 2 and pies 4, is precisely the maximum wage for B classes labourers on task work when grain is at 8 seers per rupee, upon which the initial rate of Rs. 2-8 per 1,000 cubic feet for the Tribeni canal was calculated, but the task done is less than was then anticipated. On the section for which detailed statistics have been collected, 183 out of 504 family gangs employed have *nuniyas*, who are professional earth-diggers at their head. These gangs generally succeed in earning considerably over the above rate, and the others earn a good deal less It has now been found necessary, in the absence of civil works within several miles of the Tribeni canal, to make special arrangements on it for the employment of weakly gangs and people with no diggers. Separate sections will be opened for such, and no one will be admitted to these unless approved by the Charge Superintendent. It is proposed to employ diggers of ordinary physique at a little more than the sanctioned rate for digging the earth and to put on the weakly people as carriers independently for carrying this away."

The Collector of Muzaffarpur has received reports from the Executive Engineer and the Superintendent of Relief Works, to the effect that though a sudden change from task to piece-work frightened the relief-workers at first and was unpopular, they very soon took to the piece-work and can earn the full maximum wages. The work done on the Baghmati canal, section II, is described as a model of neatness and order.

Mr. Carlyle, Collector of Darbhanga, writes:—

"As regards the effect of the introduction of piece-work, I stated in my last report that the average earnings per male unit were somewhat less than 1¾ annas the full wage of a man on task-work * * * In no case was the wage earned large enough to permit of any material reduction in gratuitous relief. I may note in suport of this that some of the children whom we saw when the Lieutenant-Governor visited the line were clearly not receiving sufficient food although their parents were working on the line. The rates will clearly not permit of reduction, and I would not propose at present to raise them, as this might draw away labourers from the fields."

9. *Private relief works.*—Private works continued to play an important part in some localities, although many tanks were filled by the recent rains and work on them closed, and the numbers employed generally decreased as on the Government relief works. The Sabar tank in Shahabad was full of water, and the numbers employed thereon are reported to have fallen to 200. Other tanks undertaken in this district by private individuals, mentioned in previous reports,

besides several small works for which figures have not been received, employed a daily average of about 1,000 persons. The numbers also fell on the Mogulsarai-Gaya Railway in this district in the latter half of June, the total numbers employed being as noted on the margin. In Saran the Hatwa Raj had ten works open, and the average daily number of male units employed on them was 2,015 against 3,439, the corresponding figure for May. The Darbhanga Raj had several works open in the districts of Muzaffarpur and Darbhanga as before, the numbers employed on which were—

The figures given above for Saran are incomplete as to the average daily number fed in one of the two kitchens. At the end of May there were in the Division 27 poor-houses and 73 kitchens, and the total average daily number fed in them was 13, 564. The increase in June was due to a great development of kitchen relief in Muzaffarpur and Darbhanga. This form of relief was almost entirely confined to children who numbered 11,740 in Muzaffarpur and 7,089 in Darbhanga at the close of the period under report. As regards Champaran the Collector writes:—

"The number of kitchens has increased from 12 to 16, and more are being opened everywhere. The progress made in this direction would have been larger had all officers not been so busy with the distribution of seed loans for some weeks back. There is also, as observed in last report, a difficulty in extending the system where the circle officers are honorary, as these have no time now to bestow on such matters, and kitchens serving more than a limited area would not be of much use in the rainy season. The need for kitchens is, however, very apparent in the deterioration observable in the condition of children."

As regards poor-houses the Collector of Champaran writes:—

"Great efforts are being made to induce those to go to poor-houses who have been struck off the gratuitous relief lists on the ground of having become fit for work, but who are seen nevertheless to refuse obstinately to go on to relief works and to be wasting in consequence, but there is a noted objection to these institutions, which has been fostered by the Brahmin priests for their own purposes, although high-caste people say there is nothing really contrary to caste prejudices in them."

The Manjha and Hatwa Raj poor-houses in Saran and the Darbhanga Raj poor-houses continued to do good work.

11. *Gratuitous relief.*—The following table shows the average daily numbers on gratuitous relief in the last week of June and the amounts of the average daily doles in comparison with the corresponding figures at the end of May :—

* These figures have been taken from column 11 of Famine Statement A.

Speaking generally of the whole Division, there was a slight reduction in the numbers in receipt of gratuitous relief, which was due to persons having been taken over by the Charitable Fund Committees, who should properly have been relieved from their funds, and to the departure from the works of relief workers taking their dependants with them. The only district which shows a large reduction is Muzaffarpur, but the Collector and the Commissioner suspect some error in the figures, which are now being further examined. In Darbhanga the number rose as compared with the number in the week ending 29th May. Mr. Stevens is of opinion that no substantial reduction in the number of persons gratuitously relieved can be expected till the *bhadoi* harvest is reaped or till prices fall.

12. *Physical condition of the people, &c.*—The physical condition of the people was generally good, but in places children showed signs of being underfed. Leaving out of consideration sporadic cases of cholera and small-pox, which are usual at this season, public health was also generally good. The cause of the slightly higher death-rate of the affected tracts in Shahabad in May, as compared with that of the whole district was, as stated in the previous report, the prevalence of small-pox and fever. During June there were outbreaks of cholera in certain parts of Shahabad, and it is stated that there were 11 deaths among the relief workers on the Hata-Barhauli road. There were no deaths from starvation. The condition of cattle was normal.

13. *Loans.*—The season for loans for village works under the modified rules under the Land Improvement Loans Act is well nigh over.

The Commissioner doubts whether the reported figures for loans of this class are correct, and has promised a further report on the matter.

Figures as to the advances made under the Agriculturists' Loans Act are given in column 11 of Famine Statement B, but they are incomplete.

14. *Food-stocks, importation of grain, and prices.*—The following table shows the imports and exports since the second-half of November in all districts of the Patna Division, including Patna and Gaya, as far as known :—

Imports fell off almost everywhere, as compared with the previous month. Shahabad was the only district in which the exports exceeded the imports, but its exports were much less than before. A great part of the imports consisted of Burma rice. The food-supply was kept up by importation and was nowhere deficient. During the first-half of the month prices rose slightly almost everywhere, but became steadier after rain began to fall; and in some places in Saran Champaran and Darbhanga they were relaxing a little at the end of the month. In Shahabad the price of common rice rose from 8 seers to 7 seers 12 chittacks in Sasaram, and the prices of other food-grains rose slightly throughout the district. In the Sadar subdivision of Muzaffarpur the prices of common rice and gram rose still further by half a seer, whilst those of barley and Indian-corn fell by a quarter of a seer and half a seer respectively. In Sitamarhi, there was a slight rise in the prices of common rice, barley and *rahar*, and a considerable rise in the price of Indian corn and *marua*.

15. Figures as to the cost of relief works and gratuitous relief have been given in columns 8 and 9 of Famine Statement B, but they are incomplete. This Government is now endeavouring to obtain correct information which, if available, will be furnished in the next Report.

16. *Chota Nagpur Division.*—There was general rain in the Division during the period under report, and agricultural operations were in full swing. There was, however, a general cry for more rain at the close of the period under report in all the districts, but favourable rains have fallen since the end of the month. Public health was generally good, but cholera still prevailed in parts of Palamau (though it did not appear on any of the relief works), Manbhum and Hazaribagh, and small-pox is reported from a few places of the last-named district. Cattle-disease was dying out in Palamau.

Palamau.

Prices still continued to rise. In the report for May it was stated that during the week ending the 29th of that month, rice was selling in 4 markets at between 5 and 6 seers the rupee, and the lowest price recorded was below 8 seers. It is now reported that during the week ending the 26th June, rice sold in 16 markets at between 5 and 6 seers, in 8 at 6 seers, in 31 between 6 and 7 seers, and in 30 more between 7 and 8 seers. The average prices of other food-grains were as noted in the margin. The *tewa dhan* was harvested and yielded an outturn of 8 to 12 annas. Government did not import rice for relief-workers in addition to the 15,500 maunds reported last month, and the Commissioner has since reported that no more will be required. The people of the district subsist chiefly on jungle produce, mahua and the cheaper grains, and not on rice; otherwise the fewness of those on relief works, with rice selling at 5 to 6 seers the rupee, would be inexplicable. Importation by private traders under the bounty system fell off, though every possible assistance was given to them. In the last report it was stated that during the five weeks ending 29th May, 7,202 maunds of rice were imported under that system, making a total of 12,560 maunds up to that date. It is now reported that, during the fortnight ending 12th June, 3,801 maunds, and during that ending the 26th idem only 785 maunds were imported, making a grand total up to date of 17,146 maunds. This falling off is ascribed to the difficulties of transport which increase as the rainy season advances, and it is said that, until the Sone and Koel rivers are open for boat traffic (and the deficient rainfall of late is retarding the opening of this route) not much can be done. As reported on previous occasions, notwithstanding the high prices, the number of relief-workers has not increased: on the contrary, the average daily number fell from 2,681 and 2,486 male units during the two weeks ending the 5th and 12th, to 1,972 and 1,641 male units during the two weeks ending the 19th and 26th June. This decrease was due chiefly to the fact that the people were leaving the works for their fields, and that the zamindars of Palamau, as well as the Charitable Relief Fund, were giving relief to a large number of persons. On the 26th June there were 15 Government works open with 1,611 workers only, against 16 works and 3,045 workers on the 29th May last. In addition to this, 3,489 persons (=2,931 male units) were employed daily on private works, so far as returns received show. The numbers in receipt of gratuitous relief fell off slightly, the daily average number at the end of the month having

been 1,965 against 1,971 at the end of May, but against 2,105 at the end of the first-half of June. Nearly all these were either lunatics, cripples, blind or aged, and decrepit. A very few were dependents of relief-workers, and these few were only admitted on production of a certificate from either the Circle Officer or the Charge Superintendent, authorising their admission. Every case before admission was carefully enquired into. The piece-work system was being carried out everywhere, but the Deputy Commissioner, Mr. Renny, says that its introduction did not appear to have made any difference in the quantity of work turned out, or in the amount of wages earned by a labourer, the reason assigned being that the earth had been baked so hard by the fierce heat of the summer that the labourers were unable to do more than they used to do under the task system.

Manbhum.

There was no change either in the area or population affected in Manbhum. Food-stocks are reported to have been sufficient, and prices fairly steady. The average price of rice in the markets of the district was from 7½ to 8 seers as in May; mahua sold at 28 seers 8 chitaks and makai at 8 seers. The imports aggregated 18,791 maunds, and the exports 705 maunds. There was a marked increase in the number of relief-workers, and a noticeable decrease in the number of the recipients of gratuitous relief. On the 26th June 1897, there were 33 works open, against 20 on the 29th May; the number of relief-workers on the latter date was reported to have been 3,971; that on the 26th June was 6,645. The average daily wage earned by each male unit on piece-work was 2 annas 5 pies, and it is reported that those employed worked only as long as they pleased. The number of recipients of gratuitous relief decreased from 11,969 on the 29th May, to 5,917 on the 26th June. The reduction effected in the former large number is, as separately reported in my letter No. 1398 dated the 17th July 1897, due to instructions issued by the Commissioner during a visit paid by him to the affected tracts.

The number of kitchens open was 8 in the Gobindpur and 2 in the Sadar Subdivisions; 8 more will, it is stated, be opened in the former place, and several others in the latter.

Hazaribagh.

The report of this district is, on the whole, reassuring. There was good rain, the weather was all that was wanted for agricultural purposes, and numbers left the relief works for their fields. The number of relief works open was 36 against 49 in May, exclusive of the ordinary public works carried on in the district. It is reported that, taking relief works and ordinary Public Works Department and Municipal works together, the average daily number of workers during the week ending 26th June was 1,156 against 1,751 in the week ending 29th May. The number of kitchens increased from 26 to 29, and the average daily attendance was 5,602 against 3,494 at the end of May. During the four weeks ending 26th June, 2,753 persons were employed on private works undertaken with loans given by Government. The number of women relieved during the week ending 26th June by the Local Charitable Relief Committee by employment on cotton-spinning and weaving was 960, against 993 in the last week of May. Prices began to rise after a short lull during the first-half of June; that of common rice was 6½ to 8 seers, and of *mahua* 18 to 32 seers.

Lohardaga and Singhbhum.

There was practically no change in the condition of Lohardaga, except that prices had gradually somewhat risen during the month, but the people continued to leave the works for their fields, and the number of male units, which had fallen from 819 on the 29th May to 542 on the 12th June, again fell to 343 during the week ending 26th idem. That distress was, however, felt in a sporadic manner in the interior, is evidenced the Commissioner says by the pinched appearance of the women and children; arrangements have been made for feeding them by opening five new kitchens in selected places. In Singhbhum, the test works opened did not attract workers, though it is reported that the continued high prices were drying up the usual sources of private charity, and that the number of beggars in the town of Chaibassa was sensibly increasing. The Local Relief Committee was opening a kitchen for the relief of these persons. About 30 other persons were receiving doles from the Committee.

17. *Presidency Division.*—There was general and good rain in all the districts, and prospects improved. Imports exceeded the exports in every district. The price of common rice was as shown in the margin. Public health was good and the condition of cattle satisfactory. The position of the 24-Parganas district remained the same, and gave no cause for anxiety.

Nadia ...	7½ to 8½	7½ to 8
Khulna ...	7 to 8	7-½ to 8
Murshidabad ...	8½ to 8½	7¾ to 8-10
Jessore ...	7½ to 9	7½ to 9

The area and population affected in the district of Nadia remained practically the same as reported in May. Four test works were being opened in the Chuadanga Subdivision, but the Subdivision has not been classed as affected. The general condition of the affected area is reported to have deteriorated, but should the *aus* crop give the good outturn expected, it is hoped that distress will be over in the greater part of the affected area by the middle of August. The situation is thus described by the Collector—

Nadia.

"Outside the affected area, where the mahajans still have in places small stores of paddy, there has, perhaps, been a slight improvement in the general condition of the people, as owing to the promising state of the *aus* crop, the mahajans have been making small advances of grain to the cultivators. Within the affected area, however, the mahajans have no grain to advance, though, I believe, they have here and there been advancing money to the very few comparatively well-to-do cultivators who can afford to pay for the weeding of their fields. It may be said, generally though, that the weeding of the *aus* crop this year has been done almost entirely by the cultivators themselves, owing to their inability to pay for hired labour. The consequence has been that the lands have not been as closely weeded as they should have been, and this will, to a certain extent, reduce the outturn. The prospects of the *aus* crop, however, are, on the whole, very good, and should the present break in the rains not continue for many more days, the outturn should be better than we have had for many years. The *aman* crop also promises well, but it is far too early yet to form an estimate as to how it is likely to reap. * * A good deal of *aman* land has this year been sown with *aus*. * * The prospects of the indigo crop in the north of the district are very poor. * * It was severely damaged by the excessive rainfall between the 15th and 25th June. This is much to be regretted, as the manufacture of indigo affords employment to a large number of men. * *"

There were 29 relief works open, against 26 in May, and the total number employed on the 26th June was 23,335, against 20,101 on the 29th May. The number rose to 21,572 on the 12th June. There was a further rise during the week ending the 19th June, the daily average number having been 25,892. The decrease at the end of the month was due to excessive rainfall, which rendered earthwork almost impossible for some days. The piece-work system was in force on one work under the Civil Officers, and four works under the Public Works Department.

As previously reported, the large number of recipients of gratuitous relief in this district has been engaging the attention of this Government, and instructions were issued some time since to the Collector to scrutinise his gratuitous relief lists, and remove from them any persons who were not fit objects of such relief. Immediately on assuming charge, the Officiating Lieutenant-Governor, accompanied by the Revenue Secretary, paid a visit to the district, and on the 25th June, a Conference was held at Krishnagar, at which the Commissioner of the Division, Mr. E. V. Westmacott, was present, to discuss the subject of famine relief administration. His Honour was convinced, from what he saw and heard, that gratuitous relief was being given too liberally, and has issued orders for a careful scrutiny and revision of the lists in a Minute which has been submitted to the Government of India with my letter No. 1398(Fam.), dated the 17th July 1897.

Mr. Stevens hopes that these orders will produce the desired effect in reducing the inordinate number of recipients of gratuitous relief, and is glad to find that the numbers have already fallen since his visit to Nadia, as shown in the margin, but they are stilll susceptible of large reduction. The establishment in Nadia has been further stengthened by the transfer of three gazetted officers from other districts. No poor-houses or kitchens had been opened to the end of June, but the Collector has in the Lieutenant-Governor's

minute of the 28th June, been directed to open them now and place in them recipients of gratuitous relief who are able to work but refuse to work. There was no case of death from starvation.

Khulna.

The affected area in Khulna is now reported to be 474 square-miles, with a population of 276,000 persons: this area includes 25 square-miles of Satkhira thana in which test works have been opened, and six villages in thana Magura. The condition of the affected area was worse than before. Earthwork was rendered impossible by heavy rain. The area sown with *aus* and jute is reported to be largely in excess of that usually sown, and the prospects of these crops were very good. There are, it is said, no local stocks of rice, but Burma rice is being generally imported. There were 36 works open in June, against 31 in May, and all were conducted under the piece-work system at a rate, per 1,000 cubic feet, of Re. 1-14 for soft soil and Rs. 2-6-6 for medium soil. The average daily earnings of each male unit were Re. 0-2-7·4 during the week ending 23rd June. The Collector found that work was impossible in the majority of these works, and therefore ordered them to be closed. The Officiating Lieutenant-Governor has lately visited this district and directed that work should be provided in the shape of pounding *surki*, where possible, for labourers who are in distress and cannot find employment on the fields. The following statement compares the principal statistics of relief during the month of June:—

Week ending—	Number of relief works open.	Average daily number of male units on—			
		Piece-work.	Daily wage irrespective of task.	Gratuitous relief.	Total.
2nd June	36	4,744	1,037	5,282	11,063
9th ,,	36	5,319	1,025	5,521	11,865
16th ,,	37	4,158	1,072	8,725	11,205
23rd ,,	36	2,055	1,216	6,195	9,466

The number of labourers on relief works decreased considerably, owing to some of the works having been closed, but the number on gratuitous relief increased. On the 23rd June, there were only 772 relief workers, but 7,517 recipients of gratuitous relief, against 4,809 and 6,163, respectively, on the 29th May. Many of the recipients of gratuitous relief were employed paddy-husking, string-making, &c. There were two poor-houses open with 583 inmates, and it is proposed to open four more. The Collector says that the numbers on gratuitous relief were only between 2 and 3 per cent. of the population, and it will be difficult, with safety, to reduce this percentage at all before September next, and then it can only be done partially. The Officiating Lieutenant-Governor, who visited this district after Nadia, has directed a careful scrutiny of the gratuitous relief lists, and issued the following instructions:—

"The lower classes of Muhammadans and Hindus should be employed in pounding *surki* where this is possible; and persons of this class, who are physically fit to work and refuse to labour, should be sent to poor-houses. The lists should again be scrutinised as in Nadia, and all those who have friends or relations in a position to support them, should be struck off the gratuitous relief lists"

Works executed on loans by private persons are reported to have been mostly finished.

Murshidabad.

The area and population affected in the district of Murshidabad remained unaltered. The general condition of the affected tracts is reported to have improved, and it is stated that the repairs of the damage done by the late earthquake will give employment to the labourers during the rains. Rain fell throughout the

district, and in places abundantly, and the prospects of *aus* continued favourable The following table shows the principal statistics of relief works:—

Week ending—	Number of works open.	Average daily number of male units on—			Sanctioned rate per 1,000 cubic feet.
		Piece-work.	Daily wage irrespective of task.	Total.

19th „ ...	18	2,420	47	2,467	
26th „ ...	18	1,269	852	2,121	

The number of relief works open increased from 11 (6 relief and 5 test works) in May, to 18 in June, but the number of workers decreased, being on the 26th June only 1,923 against 3,808 on the 29th May. The falling off is attributed to the very great demand for labour in the fields and in the silk and indigo factories, and also in towns owing to the destruction caused by the late earthquake. The piece-work system was in force on all the works. It is reported that this system enabled the professional labourers to earn 3 or 4 annas a day, and that practically only professional labourers came to the works. Gratuitous relief was given to about 5,500 persons daily, entirely out of the Charitable Relief Funds. As before, private charity played a most prominent part in this district.

Jessore.

The condition of the district of Jessore is reported to have improved since last reported on, except that the heavy rain, during the latter half of June, submerged the low-land rice everywhere, particularly in the Narail subdivision. The Collector, however, thinks that much of the loss will be retrieved, and that the matter is not serious. The prospects of both *aus* and *aman* were good. Imports were larger than exports, and Burma rice was being imported from Calcutta. Prices showed a tendency to fall. Test works were opened at some places on which the existence of distress was reported by the local officers, but were not attended, and have been closed. Gratuitous relief was given as before from the Charitable Funds. During the month, Rs. 10,987 were advanced under the Agriculturists' Loans Act on joint applications for the purchase of seed, and Rs. 1,227, for the same purpose, from the Indian Famine Charitable Relief Fund.

18. *Bhagalpur Division.*—With the commencement of the monsoon there was a general change for the better throughout the Bhagalpur Division. When the Commissioner wrote the people considered the season to be most favourable and prospects to be as good as possible, but it is now reported that rain is urgently wanted for the transplanting of rice in the Supaul subdivision of the Bhagalpur district.

Bhagalpur.

Good rain, in all Subdivisions of the district of Bhagalpur had the effect of largely reducing the numbers on relief works. The three test works in the Banka and Sadar Subdivisions were closed, and the Collector wrote on the 3rd July that orders had been issued to close all of the ten relief works in the Supaul and Madhipura Subdivisions but three. The total number of relief workers on the 26th June was only 1,193, against 7,313 at the end of May and 18,965 at the end of April. The numbers on gratuitous relief on the 26th June aggregated 4,027, against 2,740 at the end of May. The Collector writes that the increase was partly due to the fact of the Charitable Funds having run short, and the consequent transfer to the Government lists of persons who had been in

receipt of gratuitous relief from Charitable Relief Funds. Public health remained good, and food-stocks were sufficient.

Sonthal Parganas.

The report of the Deputy Commissioner of the Sonthal Parganas is not complete, in so far as it does not furnish statistics with regard to the Deoghur Subdivision. In the district generally there was good rain, followed by dry weather, which facilitated field work, and prospects of all crops were good. In the Jamtara Subdivision there were five relief works open, with 1,235 workers on the 26th June. All these works were conducted on the piece-work system, and the Deputy Commissioner reports that the daily earnings were 1 anna 9 pies per adult male unit. It is also stated by the Deputy Commissioner that, since the introduction of the piece-work system, the numbers of dependents, as also those of labourers on daily wages, have gone down to nominal figures. The average daily number on Government gratuitous relief in this Subdivision in the week ending 26th June was 1,198. On that date, the total numbers on relief works and gratuitous relief in the whole district were 2,310 and 4,733 respectively. The Deputy Commissioner thinks that in the Deoghur Subdivision, relief measures are not likely to be required beyond the month of August, but that in the Jamtara Subdivision, distress will probably last longer, as *bhadoi* crops are not being extensively grown there, and the harvesting of them will give little relief.

19. *Rajshahi Division.*—The rainfall was beneficial to the crops, and prospects are reported to have been good in Rajshahi as well as in Pabna. But prices rose in both districts. In the district of Rajshahi, common rice sold at 5½ to 6 seers. The Collector writes that this was mainly due to the interruption of traffic on the Northern Bengal State Railway, in consequence of the earthquake of 12th June. The telegraphic report for the week ending 28th June shows that the price of common rice in this district varied from 6 to 8¼ seers the rupee. In Pabna, it ranged from 6 to 8 seers. There was only one test work open in the district of Rajshahi, against two in May, and the number of labourers employed thereon was 341, against 438 at the end of May. Prices are very high and some grain rioting has recently been reported from this district, but the people are prosperous, the prospects of the jute crop (on which they can raise money from mahajans) are excellent, and relief test works, which have from time to time been opened, have not been attended by labourers to any appreciable extent. In Pabna, there were four test works, which employed 1,397 labourers on the 30th June.

20. *Orissa Division.*—The only districts of the Orissa Division in which relief was given, are Cuttack and Puri; but in Cuttack, the operations were confined to the distribution of gratuitous relief from Charitable Funds, and the total number, consisting mostly of women and children, reported to have been in receipt of doles at the end of June, was 4,394 against 2,306 at the end of May. There was general rain throughout the district; but although it greatly benefited the crops, the total fall recorded was much below the normal quantity, and more rain was wanted at the end of the month. Copious rain has since fallen.

Khurda „ ...	43	15,000
Total ...	274	89,000

The total area, now reported, as affected in the district of Puri is 274* square-miles, with a population of 89,000. The general condition of the distressed tracts remained unchanged, and the prospects of the crops were good; the sudden cessation of rain towards the latter end of the month was then causing anxiety, but sufficient rain has since fallen. There were 19 relief works open, against 15 relief works and five test works at the end of May; and the total number employed in the district at the end of June, was 4,015, against 4,604 in the Sadar Subdivision alone at the close of the previous month. The system of piece-work, which was introduced in the Sadar Subdivision, is reported to have reduced the number of children on the works. The Collector writes that, under this system, a man can earn between 2 and 3 annas a day. The District Board road, and the

expenditure was met from Government funds. The high death-rate of the affected tracts in this district, shown in Famine Statement A, was due to cholera and small-pox, which are reported to be prevailing largely in those tracts.

21. *Burdwan Division.*—In the district of Bankura, the Chhatna outpost of the Sadar Subdivision, which is similarly circumstanced to thanas Sonamukhi and Gangajalghati, was added to the affected tracts, raising the total distressed area to 560 square-miles, with a population of 258,000. The relief works open numbered 17; but in consequence of copious rainfall, the workers employed on them aggregated only 1,872 on the last day of the period under report, against 8,689, the total number of relief workers on the 31st May. The number on gratuitous relief was, however, 6,507, against 3,521 on the 31st May. The Collector's attention has, however, been drawn to this increase in numbers, and he has been directed to adopt measures similar to those taken in Manbhum. The death-rate in the affected tracts, as shown in Famine Statement A, was 4·1 against 2·87, the figure reported for the whole district. The higher rate is stated to have been due to the prevalence of fever and cholera. Rs. 8,132 were granted as loans under the Agriculturists' Loans Act. Besides this, loans and gifts were made out of the Charitable Relief Fund.

22. The total expenditure incurred from the beginning of the famine relief operations to the end of June, according to the Accountant-General's figures, was Rs. 72,05,131.

23. There is nothing of importance to notice with regard to the Dacca and Chittagong Divisions for the period now under report.

DISTRESS IN THE PATNA DIVISION.

No. 1469Fam.—The 27th July 1897.—The following paper is published for general information.

M. FINUCANE,
Secy. to the Govt. of Bengal.

No. 1618F.G., dated Bankipore, the 23rd July 1897.

From—J. A. BOURDILLON, Esq., Officiating Commissioner of the Patna Division,
To—The Secretary to the Government of Bengal, Revenue Department.

I HAVE the honour to forward herewith my report under sections 13 and 24 of the Famine Code for the first half of July; the period to which the figures and the reports refer comprises the two weeks ending the 3rd and 10th July. My next report will be for the three weeks ending the 31st idem.

PART I.—INTRODUCTION.

2. As soon as I had concluded and despatched my last report, I joined Mr. Higham at Muzaffarpur and proceeded with him on the 28th ultimo, to meet the Lieutenant-Governor and party at Laheria-Sarai on the 29th idem.

3. On that day the Lieutenant-Governor presided over a conference which was attended by Mr. Higham, the Revenue Secretary to Government, and myself, and he also fully discussed many matters of importance with the Collector, the Superintendent of Famine Relief Works and myself. On the 30th a visit was made to the Sakri-Jainagar Railway and a number of recipients of gratuitous relief were inspected at various places *en route*, leaving Darbhanga at midnight of the 30th. His Honour and party reached Chapra on the 1st July at midday: here also a long conference was held with the Collector and his Charge Superintendents; many recipients of gratuitous relief in the town and outside it were inspected as well as the poor-house inmates at present accommodated in the serai. Proceeding again by night train the Lieutenant-Governor reached Hatwah on the morning of the 2nd July. A large number of those on the gratuitous relief lists were inspected both at Hatwah and Siwan, and much other business was done. On the 3rd July, Saturday, the party left Hatwah at midday, after visiting a civil agency tank in the vicinity, and reached Muzaffarpur at dark by rail. The morning of Sunday, the 4th, was devoted to a long inspection of the gratuitous relief recipients at Damodarpore near Muzaffarpur, and the poor-house was also visited in the afternoon of the same day. His Honour left for Calcutta, and at midnight the Revenue Secretary and I proceeded to Motihari. Here we spent the whole of the next day the 5th, and left again on the morning of the 6th for Calcutta and Bankipore. On the 5th two relief works were visited, a large collection of persons in receipt of gratuitous relief was inspected, and a long conference held with the Collector, the Superintendent of Famine Relief Works, Mr. Toogood, and the principal local officers. The weather throughout this tour was unusually oppressive and trying.

PART II.—DISTRICT REPORTS.

4. *Patna.*—The condition of this district remains thoroughly prosperous.

5. The floods mentioned in my last report as following on the unprecedented rain of the 23rd, 24th and 25th June disappeared without doing very great damage. Here, as in other districts, a long break in the rains followed the deluge of those few days, and although the weather was most oppressive, and fears began to be entertained, the absence of rain was, on the whole, beneficial, as it enabled almost the whole of the inundated area to be resown, so that beyond the additional cost of seed and labour the agriculturists lost little by the floods. Since the close of the period under report (July 10th) good rain has fallen everywhere, and the prospects of the district are excellent, though as I write, much of the land from the south of Patna to the east of the district is again under water: much of this land is submerged every year, but the present inundation is deeper and more widespread than usual, owing, no doubt, to heavy rain in Gaya and Chota Nagpur.

6. Prices are stationary or rising slightly, but there is no cause for alarm.

7. Imports and exports have both fallen off, the former to a large extent.

exports 48,292 maunds against 49,905 maunds, thus instead of a small balance of 13,651 maunds in favour of the district; we have now a balance against it of almost the same amount, viz., 13,853. The change in the situation thus represents 27,504 maunds, but considering the great volume of Patna trade, and the great stocks in the city, this is a matter of no importance. The imports were almost entirely rice (31,187 maunds), and the exports gram and pulses (40,823 maunds).

8. There is a small advance in the number of the inmates of the Bankipore poor-house (due chiefly to the inclement weather) from 162 on the 26th June to 176 on the 10th July. A kitchen is open at Barh, where, from the Collector's report, it seems to be really required. The Subdivisional Officer by some extraordinary misunderstanding has hitherto limited relief to twenty persons a day, but the Collector has trebled these numbers. A poor-house will probably be substituted for the kitchen at an early date.

9. *Gaya.*—The condition of this district leaves nothing to be desired except a fall in prices which will not occur till there is a general fall throughout Northern India.

10. The rainfall in Gaya was short during the fortnight under report, and Gaya like other districts experienced the extremely close and oppressive weather which prevailed from the 26th June to the 7th or 8th of July, and crop prospects, however, are extremely good, and prices are stationary, for there has been copious rain since the fortnight closed, *i.e.*, about 10 inches between the 11th and 16th, both days inclusive

11. There has been a rise in the imports of grain which were 17,077 maunds against 14,744. The exports including those by road to Palamau were 3,405 against 7,375. The net balance in favour of the district is therefore 13,672 against 7,369. The exports to Palamau were 1,490 maunds against 6,989. The imports are now not exclusively rice as they have practically been hitherto, but about half were gram and pulses (8,859 maunds).

12. Returns have been received in full from 5 poor-houses, and they fed a daily average of 936 persons against an average of 871 in the same institutions in the previous fortnight. There is an extraordinary drop in the Aurangabad poor-house from 246 a day to 64, of which an explanation will be asked. The Mohunt of Bodh-Gaya has closed his kitchen at Kusa on the Grand Trunk Road as no longer necessary.

13. During the month of June 4,148 persons were relieved from the Charitable Fund at a cost of Rs. 4,080-10-7, of whom 3,000 were under class (i), (relieved by food and clothing) and 1,148 under class (iii) (respectable women). Apparently no widows and orphans were relieved (class ii), nor were any donations given under head (iv). I have made no allotment to Gaya from the Charitable Fund grant for the Division, so that whatever has been expended has been locally collected.

14. *Shahabad.*—In this district also a period of anxiety has been followed by good rain since the fortnight closed, and prospects are now very favourable.

15. During the first week of the period, *i.e.*, 27th June to 3rd July no rain fell, but the district experienced extraordinarily hot-weather with a west wind and a May temperature, so that the gravest apprehensions arose, but in the week ending the 10th instant more than an inch of rain fell, and since the 10th, the rain has been plentiful everywhere.

16. Consequently the prospects of the *bhadoi* are excellent, and prices are either stationary or rising very slightly. The Collector notices that *bhadoi* has been sown this year both more widely and earlier than usual, so that he expects much of the crop to be harvested by the end of August. Much rice has been sown broadcast instead of in the usual manner for the double reason that rice so sown will be a little earlier than the transplanted rice, and it obviously costs less to raise a crop.

17. The excess of exports has re-asserted itself, showing at any rate the confidence the people feel in the agricultural outlook. Imports by road, river and rail aggregated 29,965 maunds against 25,804, and exports were 42,556 against 33,971. The figures for the previous fortnight differ slightly from those given in my last report, but taking them as now stated, there remains a balance against the district of 12,591 maunds against one of 8,167 maunds in the preceding period. All the imports by rail were rice and all the exports rabi crops: Ballia and the districts of the North-Western Provinces sent Shaha-

19. As stated in my last report, works were closed at the end of the previous period after the heavy rain of the 23rd, 24th and 25th June, but the continued dry weather made earth-work practicable, and also brought back many who wanted work, as there was no transplanting to be done in the fields. This accounts for the increase in the number of works, and workers, the total on task-work in the second week being nearly as high as it was a fortnight before. The proportion of D class labourers is rising, showing that the more able bodied have gone off to the fields in the first week, the D class labourers were to the B class as 22 to 78, and in the second week the proportions were 26 and 74. Mr. Windsor points out that the apparently high rate of wage earned by the daily wage coolies according to Form No. 7 is due to a mistake: most of the D class labourers have been returned as such in the proper column of form 5, but their remuneration has been shown under "daily wage" instead of under "task-work," the result being that in form 7 the earnings of the daily wage units appear too large, and those of the task-workers are below the truth. The Collector will be asked to supply corrected figures if possible, though the matter is not very important.

20. The numbers on gratuitous relief, it will be seen, show little signs of decreasing. Mr. Windsor's observations on this head in paragraph 21, and on poor-house relief in paragraph 18, show that he has thoroughly assimilated the principles of the Code on these matters and is carrying them out. I am satisfied that he and his circle officers will allow no one to receive gratuitous relief who is fit to work, either on relief works or in the fields. He has just visited the distressed area.

21. One of the kitchens appears to have been temporarily closed for the first week for want of supplies, and I will enquire further about this; but it is clear that the daily average number of persons relieved at kitchens and poor-houses is rising steadily for the figures for the last four weeks are as follows:—709, 811, 699, 983. Mr. Windsor's remarks should be read. It is manifest, as has repeatedly been foretold, that as time passes and prices do not fall another and another stratum of the rural population is affected; it is reported that all the newly admitted inmates are in bad condition, and they are obviously persons who have held out hitherto, but have at last been forced to give in. The Collector's orders to refuse the dole to lusty travellers have my approval.

22. A statement appended to the report shows that during June an average of 1,367 persons a day were aided from the Charitable Fund at a cost of Rs. 1,431, exclusive of nine persons who received Rs. 891 as advances for seed and cattle, the total expended is still small, and further enquiries will be made about the last named item, for the average Rs. 99 is a good deal larger than I had intended to be given.

23. *Saran.*—In this district after a period of acute apprehension good rain has improved the prospects of the crops, and restored the confidence of the people and all is going well. The Collector has again made a tour of his distressed areas, and writes with the confidence of personal experience.

The period under report was as elsewhere almost rainless. After the extraordinary downfall of the 23rd—25th June, and a few drops on the 26th,

no good rain fell in the Sadar station till the 11th, the day after the fortnight closed, but since then the supply has been ample. This break in the rains, though alarming, had its advantages as in Patna, for it allowed the floods to run off, and the recovered land to be resown, and the subsequent rain has gone far to make certain of a good average crop for the *bhadoi*. Advances for seed grain have been given promptly and freely, and hardly any land anywhere is now unsown which is suitable for cultivation at the present time. A little early marua and some late cheena have been damaged by the rain and floods, but these are ordinary incidents of the rainy season every year.

24. The Collector thinks that the stocks in the houses of the people are now exhausted, but gives no reasons for his belief. Useful information can be obtained in this direction by watching the sales at the baniyas' shops if the cultivators or the servants of the better classes are found to be coming in increasing numbers to make daily purchases, it may be assumed that the bottom of the grain jar has nearly been reached.

25. The movement of prices is fully treated in Mr. Chapman's 8th paragraph. Rice is no longer eaten by the poorest, and maize is not to be had. The common food of the people is now barley, rahar and gram, and these are said to have risen half a seer in price: there is also a sharp rise in the price of paddy for sowing, as the Tirhut seed is exhausted, much Bengal paddy is being sown this year. The liberal advances given out in this district will mitigate the severity of these high prices in the case of cultivators, and, as a fact, it is not a large portion of the population besides "the irreducible minimum," which has to buy its food in the bazars.

26. The imports of food grain have fallen off very largely, having been only 35,085 maunds for the fortnight against 85,914 maunds in the previous fortnight and 1,36,942 in the first half of June. At the same time the exports were 20,999 against 14,835 maunds and 8,246 maunds in the two preceding periods. The net result is a balance in favour of the district of 14,086 maunds, in the first week of the fortnight under report the imports were only 9,266 maunds. The Collector attributes this large falling off which it will be noticed has now been going on for a month, to a glut in the market, and also want of confidence in the railway. I hardly think that the latter is a very powerful factor, and I would rather ascribe the shrinkage of the trade to the fact that the grain-dealers think well of the prospects of the crops and of the stocks in hand. This theory gains support from the fact that as in the second week of the fortnight prospects began to look gloomy and prices were rising, imports began to increase once more, the imports for the two weeks being respectively 9,266 and 25,819 maunds. The whole of the falling off this fortnight has been in rice.

27. The following table compares as usual the weekly statistics for relief works and gratuitous relief:—

Week ending—	Number of works open.	Average daily number of male units on—						Task-work.	
		Task-work.	Piece-work.	Daily wage, irrespective of task.	Total relief works.	Gratuitous relief, including dependents.	Total.	Average daily out-turn per male unit.	Cost per 1,000 cubic feet.

28. As already reported all Public Works Department works were abolished and the division closed from the 1st July. This accounts for the decrease of 10 in the number of works, all works are now under Civil Agency. From what is said in the Collector's later paragraph 13, it seems that most of the works in West Gopalgunge can soon be closed. As two of Mr. Chapman's Charge Superintendents in the Sadar subdivision, Messrs. Grimley and Harding are ill of fever. I have ordered Mr. Garrett down to take over their charges, leaving Mr. Ryan to supervise the whole of Mirgunj thana.

29. The daily average number of male units on relief works showed a large drop in the first week after the rain of the 23rd, 25th June, but began to rise again as the agricultural outlook became gloomy, and field work began to fail. The numbers on daily wage irrespective of task are comparatively very large, and it is explained that may are employed on grassing slopes, and that on some works coolies were paid for rainy days. This concession is certainly allowed by the Code (section 69), but like many other provisions of the Code it is intended for a condition of acute scarcity. In Champaran I have directed that it should be given only for special reasons, and these orders will now be made general. The proportion of men to women on relief works is rising as the emigrants come back from Bengal, and also because roads which require fewer carriers have now taken the place of tanks. These two reasons also affect the outturn, and cost rates which columns 8 and 9 above show to be much better. No doubt many of the spare carriers have been employed on daily wage, and have helped to swell their numbers.

30. Almost exactly similar phenomena are observed on the Hathwa Raj work, except that the outturn and cost rate are still worse than those on Civil Agency works.

31. The numbers on gratuitous relief show little dimunition, although some of the circle officers have been cutting down their lists with excess of zeal. The Collector thinks (paragraph 17) that there is little chance of any large diminution for some time to come, and I agree with him. Only about 600 persons a day were relieved during June from the Charitable Fund, which has clearly had no effect so far on the numbers on gratuitous relief. Mr. Chapman's proposed series of steps in the abolition of gratuitous relief are sensible and good.

32. The two Government poor-houses fed on an average 164 persons a day against 156 in the previous period; those maintained by the Raj contained a daily average of 423 as against 395.

33. The kitchen system is being developed, but only slowly and complete returns are not available. I hope to have fuller information by the time my next report is due.

34. Advances under the Agriculturists' Loans Act have been freely given in the worst parts of the district, and the total up to the 17th instant was estimated at Rs. 1,90,000, which is the whole of the Collector's allotment. As the time for advances is now over, he has closed his operations.

35. When its operations cease, the Hatwah Raj will have advanced about 1,15,000 maunds of grain to its tenants at a cost of about six lakhs of rupees: this fact, and the considerations stated in the previous paragraph, should not be forgotten when the small numbers on relief works in the Saran district are made the subject of comment. Every man so assisted means a group of persons saved from the necessity of going on relief works, and also additional power of hiring labour for field work.

36. Relief from the Charitable Fund grant is now being rapidly given, and Rs. 68,008 have been distributed as donations to 14,496 persons giving an average of about Rs. 4-10 a head; much of this has been given in the inundated tract. It is expected that the whole available grant of 110,000 under head 4 will be expended by the 25th instant, and I have just sanctioned a further grant of Rs. 20,000. Mr. Chapman has been prompt and successful in distributing this money where it was badly needed.

37. *Champaran.*—In spite of the serious want of rain in this district during the fortnight under review, the numbers have fallen considerably on relief works and among those receiving gratuitous relief. The demand for field work accounts for the diminution of numbers in the first class, and in the second the cause is an excessive reduction of their lists by certain too zealous circle officers.

38. During the past fortnight the weather in this district has caused greater anxiety than in any other; for the reason that in addition to the close hazy weather which succeeded the rainfall of June 23rd and 24th, there was a cessation of rain for many days. The worst parts of the district have from the first been Ramnagar and Bagaha tracts in the west and the Dhaka thana in the east of the district, and it is the first two of these tracts that have had least rain. The whole situation is clearly described in Mr. Macpherson's paragraphs 6 to 9, and it will be sufficient to say here that although Bagaha and Ramnagar received during the second week of the fortnight 1·40 and 2·65 inches respectively, this was not enough, while Bettiah, Motihari and Barharwa received still less. Since the fortnight closed on the 10th July, the weather has been unsettled, "but the rainfall has been scanty in the Sadar subdivision and south of the district generally except to the south-east of it. In the centre of the Bettiah subdivision, however, there has been good rain, but the whole of the rice in Hardih and Bagaha has still had far too little." I am glad to be able to add that I learn from a telegram just received that good rain fell in Motihari on the 22nd, which appeared to be general. As it is, the situation is this, the bhadoi is secure all over the district, but this is not a very important crop in Champaran and accounts, if my information is correct. On the other hand, there has not been nearly enough rain for the transplanting of the aghani rice, specially in the worst tracts to the west and north of Bettiah,* where much of the land has not yet been prepared: however, sometime still remains since operations in that area are always a little late, and as the aghani rice is the great staple of the tract, if it is secured by the end of the month, the loss of the bhadoi in that area need give us little concern.

* The Commissioner has since reported that there has been good rainfall all over Champaran.

M. F.

39. Prices are slowly rising at Motihari, though stationary at Bettiah Mr. Macpherson calculates that taking them all round they are now 105 per cent. higher than on the same date in an ordinary year. On the 26th June they were 88·4 per cent. above the average. As has been reported before, the common country rice has all been used up. Burma rice sells at 8 seers 13 chitaks at Motihari, 8 seers 4 chitaks at Bettiah and 7 seers 8 chitaks at Ramnagar and Bagaha. On the same date in 1874 the Collector says common rice was selling at $13\frac{1}{5}$ seers per rupee. It is obvious that at this price the masses cannot afford to eat rice, and they are probably living on barley, rahar and gram as in Saran, which are quoted as follows. Barley 10 to 11-13 seers, rahar 8-8 to 12-7, gram 8 to 10-4.

40. Grain traffic by rail seems to be falling steadily off. The imports for the fortnight, which as usual, were almost all rice, were only 20,704 maunds against 22,685 maunds, and the exports being 1,814 and 1,136 maunds respectively; the balance of rail-borne trade in favour of the district was 18,860 maunds against 21,549 maunds. On the other hand, there has been a very satisfactory rise in the imports from Nepal which were 14,678 maunds against 9,734. There was a petty export of 484 maunds into Nepal. The total figures are therefore imports 35,382 maunds and exports 2,328 maunds, giving a net importation of 33,054 maunds as against 30,739 in the foregoing period.

41. How the rail-borne imports have fallen off, will be apparent from the figures in the margin, and they certainly give one pause. With prices rising, it is clear that it must pay the dealers now, at least as well as formerly, to import grain, and if they abstain from doing so, it must be due to one or all of four causes (*a*) want of confidence in the railway (*b*) uncertainty as to the progress of the rains (*c*) a belief that stocks are sufficient, or (*d*) the competition of grain from Nepal. Of these motives of action I do not attach much importance to the first, as the railway authorities have shown that they are now fully equal to a large demand: to rely on the third would be too optimistic, and I am led to believe that besides the actual hesitation felt by men, who till this year have had nothing to do with the import business, the traders are influenced by the importations from Nepal which now that the embargo on exports has been practically withdrawn are probably a great deal larger than the reported figures. This theory is supported by the fact that whereas up till lately the

bulk of the imports came to Bettiah, consignments to that station are steadily falling off, as the following figures for the last three fortnights show 20,917 maunds, 10,589 maunds and 5,432 maunds. No apprehension is felt, however, and it is reported that the tide has begun to flow again.

42. The public health is extraordinarily good, and the district death-rate for June was only 2·44 per mille against an average of 3·31; this was due to the amazing absence of cholera, which this year has been almost unknown.

43. The subjoined statement compares as usual the figures for relief work and gratuitous relief during each of the past four weeks:—

Week ending—	Number of works open.	Average daily number of male units on—						Task-work.

44. It will be seen that the numbers on relief works (column 6) are falling with very satisfactory steadiness, the reason being not only that work in the fields has called away large numbers of daily labourers, but that many of a better class have been enabled to leave the works for the time on advances granted by the mahajans (see paragraph 3 of the Collector's report) while the advances which have been given in this district by the Collector under the Agriculturists' Loans Act, and the donations which he has made from the Charitable Fund have had the same effect. The apparent rise in the task-workers in the first week of the fortnight is due to the figues for the previous fortnight having been unduly reduced by the public holidays, when large numbers were paid and counted for as on daily wage irrespective of task. The number of those on daily wage is larger in proportion than formerly, because much dressing and finishing is being done. Mr. Macpherson explains that even from these persons a task is exacted, though it cannot well be expressed in cubic feet, so that they are not shown as task-workers. The outturn is rising, and the cost rate falling as the work is now more on roads than it was. The Collector hopes to close several more works during the current fortnight. Piece-workers are not declining so fast as those on task-work, a sign that the new system is more popular than the other. Mr. Still reports that there are no complaints that we are unduly attracting labour from the fields, and as it is desirable to push on with the Tirbeni canal, the retention of the piece-workers is unobjectionable. The fact that they are still there in such large numbers is a curious comment on the apprehensions that fever would close those works by the middle of June.

45. The numbers of those on gratuitous relief are also falling steadily. The fall during the last four weeks being 22·63 per cent. in the number of adult units as against a fall of 59·04 per cent. in the average daily numbers of male units on relief works, but this decrease is a good deal discounted by the consideration that during June 5,692 persons were relieved from the Charitable Fund, and that about 15,000 heads of families or 75,000 persons have been relieved by donations, though the effect of the latter operations would most be felt on the relief works. Turning to the actual figures, however, it is clear that many dependents were removed from our lists when the relief workers, to whom they were attached, left the works: the diminution of those relieved under Chapter V of the Code is said to be due to very strict checking, and the rejection of all those who could do any work at all in the fields. Mr. Macpherson rightly points out that numbers of weaklings can do a day's weeding in the fields who are quite incapable of carrying a basket of earth

backwards and forwards all day with long leads and lifts. But this strictness can be carried too far, and I shall not be surprised to see many of these rejections back on the lists. The Collector is fully on the alert.

46. Poor-houses continue to be unpopular and one at Makhwa was burned down, it is believed by incendiaries during the fortnight with the loss of three lives. The daily average of inmates was 1,575 against 1,675 in the preceding period.

47. The number of kitchens has advanced from 16 to 31 during the fortnight, and the average number fed daily was 3,030 against 1,491 in the previous period. The average number of children was 1,842 per diem or 16·79 per cent. of the whole, not so high in proportion as in Muzaffarpur or Darbhanga.

48. It was stated in Mr. Macpherson's previous report that every available officer had been deputed to give out advances under the Agriculturists' Loans Act, and the figures given in his present report show that he has been very successful. During the year 1896-97 he advanced Rs. 46,890, and since the 1st April he has advanced Rs. 1,86,273, of which Rs. 85,663 were given out during the fortnight under report. Seven-eighths of this last sum were distributed in the Hardi and Bagaha thanas, and as these people have been largely assisted also by donations from the Charitable Fund, there should be little distress there if only the monsoon is favourable. The Collector has rightly limited his advances to an average of Rs. 6·7 to each cultivator.

49. From the Indian Charitable Relief Fund Rs. 11 were spent under head II, Rs. 5,692 under head III (relief of respectable women, &c.,) and Rs. 49,512 in donations under head IV—total Rs. 60,549—the total expenditure to date has been Rs. 82,512. I make no comment on the number of persons relieved for a glance at the statement appended which is in the authorised form will show that the information it supplies is incomplete and misleading when persons are relieved by donations made once for all, it is impossible to deduce daily averages.

50. *Muzaffarpur.*—In this district prospects are brighter: there has been a steady fall in the numbers both on gratuitous relief and on relief works, and the *bhadoi* gives excellent promise.

51. After the rainfall of the week ending 26th June which amounted to about 6½ inches Muzaffarpur had no rain during the fortnight under report, except a shower or two on the 6th, but Sitamarhi which had received little in the previous week did better with ¾ of an inch. Since the fortnight ended, Muzaffarpur and Hajipur have had good rain, but Sitamarhi is again very short. Fortunately, however, good rain has fallen north and south of the subdivisional head-quarters, and the condition of the subdivision is not so bad as the rainfall figures would indicate. In these circumstances prospects of the *bhadoi* are excellent everywhere. In the Sadar subdivision and in Hajipur the transplanting of winter rice has begun, in Sitamarhi this is not so, but the season there is later, and the Collector says that the transplanting of paddy can be delayed even as late as the end of August.

52. Prices remain fairly stationary in Muzaffarpur. In Sitamarhi which is the point of anxiety, there was no change except that makai was selling ¾ of a seer cheaper than in the previous fortnight.

53. Public health has been good, but for one outbreak of cholera near Muzaffarpur itself.

54. The figures for rail-borne traffic are again incomplete, owing to the failure of six station masters to supply the information required. It will be remembered that in the figures given in my last report, statistics for three stations were not given, and that in the previous fortnight the number of defaulters was five. I have already addressed the authorities on the subject and will do so again. Taking the figures as they stand, however, it appears that during the fortnight 50,863 maunds were imported and 3,567 exported against 48,326 maunds and 9,710 maunds in the previous fortnight. The balance in favour of the district is thus, 47,296 maunds against 38,616 maunds. Nearly three-fifths of the imports were rice: further comment on the circumstances is impossible.

55. The following table presents figures for relief works and gratuitous relief during each of the last four weeks :—

Week ending—	Number of works open.	Average daily number of male units on—						Task-work.

During the fortnight eight works under Civil Agency and four under that of the Public Works Department were closed. I had hoped that it would be possible to close more, but it is obvious that the holding off of the rain properly deterred the Collector from hasty closure.

56. The numbers on relief works as a whole have gone down, but not rapidly. The drop would have been greater, but for an unexpected rise in the Hajipur subdivision on the last day of the period which the Collector is going to investigate. Apparently labour in the fields being over for the time large numbers came back to our works for employment : it will be remembered that once before in this subdivision there was a sudden fluctuation of this sort when the relief workers suddenly fell off (*vide* paragraph 58 of my report No. 1436F.G. of the 24th June). At any rate the incident shows two things—first that our works do not interfere with private demands for labour, and secondly (as has been foretold already) that some relief works at any rate must be kept on to meet the requirements of the people in the intervals of work in the fields. The outturn remains very good and the cost rate low.

57. The daily wage workers are falling off but little. The astonishing rise in their numbers for the week ending 26th June was due to the Jubilee days. Their proportion to the task-workers is very large: no doubt they are finishing and dressing up work.

58. The piece-workers have fallen off a good deal and are now practically all collected on the Baya Nulla Cut, which it was found advisable to complete; for the same reason the rate per 1,000 cubic feet has been raised, and the outturn has improved doubtless because many professionals were attracted.

59. The Darbhanga Raj still carries on relief works at Parihar, but the attendance fell from an average of 1,246 to one of 540 persons a day.

60. The numbers on gratuitous relief show little signs of falling off. I noticed in my last report that the figures for the 26th June in column 7 above were open to suspicion, and I called for an explanation which has not yet been received. During the month the average daily number of adult units has fallen from 69,452 to 61,934 only. Comparing the last two weeks together, as is done in Mr. Maude's thirty-fifth paragraph, it appears that whereas the numbers relieved under Chapter V of the Code have fallen, the number of *persons* being 59,560 as against 62,833. There has been a large advance under kitchens from 10,724 to 16,566. The same table shows that out of all the persons relieved the ratio were nearly as follows—women 3, children 2 and men 1.

61. The Darbhanga Raj at Parihar relieved gratuitously about 956 persons a day as against a daily average of 895 in the previous fortnight.

62. Poor-houses in this district were again 7 in number, and they held on the last day of the period 357 inmates as against 298 on the 26th June.

63. The number of kitchens has been increased by 8 and is now 70. The numbers relieved daily were 16,407 as against 13,162 in the previous fortnight. The daily averages of each week being as follows, viz., 12,684, 13,640, 15,258 and 17,656. As before the vast majority were children.

64. Advances under the Agriculturists' Loans Act have not been pushed on so actively here as in Saran and Champaran, and only Rs. 73,634 have

been disbursed, of which Rs. 16,694 were given out in the fortnight under review.

65. I regret to say that the prescribed returns of expenditure from the Charitable Fund are not given, and it would seem as if this were hanging fire here a good deal. A statement given in paragraph 42 however of Mr. Maude's report shows that the total amount disbursed up to the 15th July was only Rs. 10,470, whereas the district allotment is Rs. 85,000 under heads 1 to 3, and Rs. 1,30,000 under head 4. The objections quoted in Mr. Maude's forty-third paragraph seem to show that donations are not being offered to quite the right class of persons, the matter will be looked into at once.

66. *Darbhanga.*—Prospects here are not so good as they were a fortnight ago. The rainfall has been insufficient and numbers are rising again both on relief works and gratuitous relief.

67. During the week ending the 26th June Darbhanga itself had 5·18 inches of rain, but from that time up to the 10th July less than a quarter of an inch was reported, and although since the fortnight closed there has been a little rain, yet on the whole the district is lamentably short, and its condition is more critical than that of any other. The district may be divided according to Mr. Carlyle into three zones—in the south, down to the Ganges from a line drawn east and west 10 miles south of Darbhanga, there has been plentiful rain, the *bhadoi* is splendid and the transplanting of rice is in full sowing in the central zone, reaching to a parallel line 10 miles north of Darbhanga and a little south of Madhubani "the prospects of *bhadoi* are good, but there has not been enough rain to permit of the general planting out of paddy." In the remainder of the district, *i.e.*, the whole tract north of Madhubani some of the *bhadoi* is failing for want of rain, and the transplanting of rice has not been attempted fortunatlely in this tract, as in Sitamarhi the season is somewhat late, and Mr. Carlyle writes that if heavy rain falls by the middle of August the rice will be safe. The situation clearly justifies anxiety.

On the 23rd July there was ·96 of an inch of rain in Darbhanga and on the 24th ·07.

M. F.

68. Prices show a slight tendency to rise: in Darbhanga barley, rice and rahar have gone up in price: in Samastipur there is a rise in wheat, marua and gram, and in Madhubani in all grains except gram which is stationary. The cheapest food-grains are barley (10 to 10¾ seers), marua and gram both of which last vary from 9¼ to 10 seers for the rupee.

69. The public health remains very good, the death-rate for June being 2·1 per mille against a five years' average of 3·83.

70. Food-grain traffic has been dull during the fortnight, probably because the dealers are watching the progress of the *bhadoi*, and anticipates a fall in prices. The total imports have been 69,274 maunds against 1,00,925 and the exports 9,090 maunds against 9,888. This shows a great drop in imports and leaves a nett balance of 60,184 instead of one of 91,037 maunds. Mr. Carlyle has said nothing about traffic with Nipal, but it is quite possible that one cause of this stagnation is increased imports across our northern frontier, he will be asked to enquire into the suggestion. As was the case when last I wrote, the imports are no longer exclusively rice for out of the 69,274 maunds imported 41,122 were "other food-grains," and rice was only 16,112 maunds, this suggests possible over importation in former period.

71. The following table compares as usual relief work and gratuitous relief figures for four weeks:—

Week ending—	Number of works open.	Average daily number of male units on—						Task-work.	
		Task-work.	Piece-work.	Daily wage, irrespective of task.	Total relief-works.	Gratuitous relief, including dependents.	Total.	Average daily outturn per male unit.	Cost per 1,000 cubic feet.

The number of works has been considerably reduced, 20 Civil Agency and five Public Works Department works having been closed since the 26th June. Doubtless most of these were tanks which have become no longer workable in view of the critical situation of the district, the Collector has done right to close no more.

72. The total numbers on relief works, after a sharp fall during the week ending 26th June on account of the rain, have now steadily gone up again. This rise has taken place chiefly in the north of the district, and is found among the task-workers, for the daily wage coolies have fallen off. The reason is of course the cessation of work in the fields for want of rain. The number of piece-workers remains constant. The outturn and cost rate are neither of them so good as they were; the Collector has given no explanation of these phenomena, and I therefore assume that they are due no special or unusual cause.

73. The numbers on Raj relief works averaged 910 a day for the fortnight.

74. The numbers of gratuitous relief have fallen slightly perhaps, because about Rs. 13,000 persons are now relieved from the charitable fund. It is clear that while the agricultural outlook is so obscure, and prices show no sign of falling, we need expect no great reduction in the dimensions of gratuitous relief.

75. The Raj figures show some falling off: the number gratuitously relieved every day in the last week of the fortnight averaged 896 against 1,005 for the week ending the 26th June.

76. The nine poor-houses in the district had an average daily population of 1,310 inmates against an average of in the previous fortnight. It is extraordinary how in this district the poor-houses are comparatively full, while in Muzaffarpur and Champaran they are almost empty. I deduce a larger proportion of absolutely homeless outcastes.

77. In kitchens were fed daily an average of 8,730 persons, of whom all but 150 were children.

78. The Collector reports that he has found it unnecessary to give any advances under the Agriculturists' Loans Act. This will form the subject of a separate correspondence.

79. No charitable fund returns are submitted which is to be regretted, nor apparently has the Collector yet made any donations from the same fund: his maximum of Rs. 30 for such gifts seems too high. I will look into the whole question without delay.

80. Mr. Carlyle's observations about the Sakri-Jaynagar Railway (paragraph 28 of his report) will be laid before Government in the Public Works Department.

PART III.—Conclusion.

81. The fortnight under report has been a period of some anxiety on account of the break in the monsoon rains which continued in most districts till almost the end of the fortnight. The cessation of rain was accompanied by close oppressive weather with a curious haze and a high temperature, and in some districts a west wind; the result was that the *bhadoi* which had come up well after the rain of the previous week began to wither and the transplanting of rice could not be attempted. On the 6th and 7th the weather became unsettled with local thunderstorms, but, except at Arrah, it was not till the 11th day after the period under report came to a close that continuous rain set in. Since that date plentiful rain has fallen in Patna, Gaya, Shahabad and Saran, and in those four districts the *bhadoi* promises to be a bumber crop and the prospects of *aghani* are good; in the remaining three districts prospects are not so good, the rainfall in all being short to the following extent on the day that I write: —Motihari, 9·29; Muzaffarpur, 2·07; Darbhanga, 4·30. In Champaran prospects are fair except in the extreme north and west which happen to be already the worst tracts in the district: in Muzaffarpur and Darbhanga the southern part of the district has a splendid *bhadoi* and good prospects of rice, a central tract is fairly well off, but in both districts the northern area has failed badly: in Muzafferpur the tract is a small one round

Sitamarhi, but in Madhubani a long stretch of country north of the subdivisional head-quarters is greatly in want of rain, both to save the *bhadoi* and to enable the rice to be transplanted. In all these three distressed regions, however, the outlook is by no means desperate, as the rice crop is the main crop in each, and that will be saved if copious rain falls before the 15th of August.

82. Prices remain stationary with a slight upward tendency; there appears to be no apprehension of failure of stocks.

83. Imports have fallen off greatly as the accompanying table will show. The Muzaffarpur figures are incomplete both for the past and the previous fortnight, so that their errors may be taken to cancel each other. As the figures stand, there is a drop of more than one-third in the total volume of imports which is contributed chiefly by Saran and Darbhanga. Muzaffarpur remains about the same, and Champaran has risen slightly owing to increased imports from Nepal. The balance of the fortnight's transactions in favour of the district is vastly smaller in Saran and Darbhanga; in other districts it has advanced slightly. These incidents seem to imply that the dealers are carefully watching the progress of the monsoon.

84. The falling of in general imports has been accompanied with a further reduction in the imports from Howrah as the marginal figures show: the decline has been going on for some time, but is continuous nowhere except in Shahabad (where the amount is insignificant), and in Champaran where it is undoubtedly met by increased imports from Nepal. Both in Muzaffarpur and Darbhanga the figures are remarkable, and in the former district at any rate they are unreliable.

85. I again give below the usual statement showing the numbers in receipt of Government relief of all kinds on the last day of the period under report and on four previous dates.

District	Estimated population of affected area.	Number in receipt of relief of all kinds on 10th July	Percentage receiving relief on the—				
			15th May	29th May	12th June	26th June	10th July
Shahabad	382,000	23,347	8·11	8·76	8·06	5·72	6·1
Saran	1,416,000	67,003	5·91	6·38	6·98	4·86	4·7
Champaran	1,860,000	110,253	10·54	10·37	10·47	7·64	5·9
Muzaffarpur	1,660,000	118,273	8·38	8·46	7·	6·26	6·5
Darbhanga	2,234,000	245,266	11·11	12·12	11·56	10·5	10·9

The figures have been taken as usual from the *Calcutta Gazette* and have been corrected for Champaran by the Collector. The percentage has risen slightly in Shahabad, Muzaffarpur and Darbhanga. It has been noticed above in paragraph 56 that the rise in Muzaffarpnr was rather sudden and unexpected, and does not represent the real progress of events in that district, the critical position of North Darbhanga accounts for the rise in that district. It is to be borne in mind that these figures do not include those who are relieved from the Charitable Fund.

86. The totals in the above statement are distributed as in the marginal statement between relief works and gratuiitous relief. It has been accepted that there is no necessary connection between the two sets of figures, but it seems useful to place them side by side for comparison and for record. If this statement is compared with the similar statement in my last report, it will be seen that the percentage on relief works has fallen everywhere except in Muzaffarpur and Darbhanga, and that the proportion of the population on gratuitous relief has risen everywhere except in Champaran.

It is remarkable that the general percentage of the population on gratuitous relief is almost exactly the same as it was at the end of the previous fortnight, and tha steadiness of the following figures which show the general divisional percentage on different dates, strongly supports the contention, so often put forward of late, that as soon as the arrangements for gratuitous relief are properly organized, the ratio of the population relieved attains a general level, which is maintained with little variation till general fall in prices enables Government to throw again on the general public the responsibility of feeding their own poor. The figures are these—May 15th, 4·66; May 29th, 4·61; June 12th, 4·75; June 26th, 4·42; July 10th, 4·11. I do not give earlier figures as they are not ready, and I have not time to work them out.

87. I submit below the usual statement giving a mean for the fortnight of all the weekly figures already given under each district and some others. It will be observed that a steady general level has been obtained. In task-work the outturn per diem per male unit varies from 38 to 55·6 cubic feet; the daily wage varies very slightly, but there is more variation between the cost rate. The wage of those irrespective of task is also very similar except in the case of Shahabad which has been noticed above.

88. The statement in the margin shows how the works open at the end of the period were distributed between the Civil Agency and that of the Public Works Department. There is a reduction of 54 in all, of which only seven were Public Works Department works and 47, those under Civil Officers. I had hoped for even a larger reduction, but in the critical state of the monsoon local officers have done well to be cautious. The largest reduction is in Darbhanga where 20 Civil and five Public Works Department works have been closed. All officers are ready and willing to close their works and concentrate or dismiss their staff as soon as prospects improve permanently.

89. As desired by Government I give below a statement showing the advances made hitherto under the Land Improvement Loans Act, and the modified rules thereunder. The doubt stated in my former report as to the correctness of the figures given has been cleared up, and revised figures are now submitted. It will be observed that comparatively little advantage has been taken of the concessions which Government allowed in order to encourage the execution of petty village works:—

90. The expenditure up to date so far as appears from the district reports is given in Appendix A, but as explained in my last report, it is manifestly incomplete. I have addressed all district officers on the subject and hope to submit separately revised figures, including charges for establishment and allowances debitable to the "Famine" head, but final figures can be obtained from the Accountant-General only. As the statement stands it appears that we have spent in the Patna Division up till the 10th July 1897, a total of nearly 53 lakhs, of which nearly 35½ have been spent on relief works and half of that sum, or 17 lakhs, on gratuitous relief. The expenditure of the last fortnight has been Rs. 4,40,893.

91. I regret that complete information as to charitable relief expenditure during June are not yet available. Muzaffarpur and Darbhanga have sent no statements at all, and those received from other districts contain some glaring errors. A separate report will be submitted.

92. The district reports and the usual statements are appended.

RESOLUTION ON THE REPORT OF THE SUPERINTENDENT OF EMIGRATION, CALCUTTA, ON INLAND EMIGRATION FOR THE YEAR 1896.

GENERAL DEPARTMENT—EMIGRATION.

Calcutta, the 27th July 1897.

RESOLUTION—No. 2950.

READ—

The Report of the Superintendent of Emigration, Calcutta, on Inland Emigration for the year 1896.

DR. R. MACLEOD held the appointment of Superintendent of Emigration from the commencement of the year under review until the 17th September, and again from the 30th October until the close of the year. Dr. W. Forsyth officiated for him in the interval. The Report, following the prescribed lines, traces the journey of each class of emigrant from the recruiting grounds to the labour districts.

2. In March 1896 Dr. P. A. Rigby, Civil Medical Officer of Manbhum, was appointed to be Assistant Superintendent of Emigration at Purulia, in addition to his other duties. The appointment of an Assistant Superintendent of Emigration at Raniganj and Asansol was also sanctioned at the same time, and an Assistant Surgeon of the third grade was appointed to the post.

3. There are four distinct methods of recruitment recognized, viz.:—

(1) by Contractors, licensed under section 12 of Act I of 1882;

(2) by local Agents of the employers of labour, who have been specially authorized to recruit by the Superintendent of Emigration under section 62 of the Act;

(3) by garden-sardars, who have been granted certificates by their employers under section 51 of the Act;

(4) the "free" system, over which a sanitary supervision only is maintained under Act I (B.C.) of 1889.

4. *Contractors' Emigrants.*—There were three licensed contractors with depôts in the suburbs of Calcutta during 1896, including one who died in March of that year. They had 12 recruiters working under them, against 6 in the preceding year, and they registered 4,164 coolies, against 3,693 in 1895, being an increase of only 471. Of the 4,164 coolies registered during the year the great majority, 3,928, were registered in the 24-Parganas, 111 in Burdwan, 106 in Jabalpur, 13 in Lohardaga, and 6 in Bankura. There can be no doubt that, as observed in last year's Resolution, the contractors evade the provisions of the Inland Emigration Act by taking over coolies collected under the so-called free emigration system, and having them registered by their licensed recruiters. Of the 236 persons registered outside the 24-Parganas, 30 were released during the journey from the sub-depôts to Calcutta; the number actually accommodated in the depôts was 4,134. During their stay in the depôts, this number was further reduced by 144, or 3·39, owing to the discharge of 59 emigrants, the desertion of 78, the death of 6, and the rejection of 1. Already 108 were in the depôts on the first day of the year, and one child was born there, so the number available for despatch to the labour districts was 4,099. Of this number, 3,944 were forwarded to Goalundo for despatch to the labour districts, and 155 remained in the depôts at the close of the year. The total deductions from all causes during 1895 amounted to 123, or 3·29 per cent. of the number accommodated. The percentage of sickness during 1896 amounted to 0·42 against 0·26 in the previous year, and the death-rate per mille was 1·41 against 1·87. The Medical Inspector of Emigrants remarks:—

"No case of cholera or of small-pox occurred during the year. The complete absence of cases of small-pox and of cholera, and the comparative freedom from bowel disorders constitute telling evidence of the vigilant care exercised by those concerned in the task of safe-guarding the health of the emigrants, and securing the efficiency of the sanitary arrangements at the depôts."

As in the previous year, no casualty or detention occurred on the journeys between Calcutta and Goalundo, but there were two releases and one death from cholera at Goalundo: 78 of the emigrants despatched to Goalundo did not reach that place till 1st January 1897, so that only 3,863 emigrants embarked from Goalundo during the year 1896; of these 1,287 arrived at their destination in Assam, having lost four by death and three by desertion during the voyage, and 2,566 reached Sylhet and Cachar, losing two by desertion and one by death.

5. *Special Local Agents and coolies registered by them.*—During the year under report 7 special local agents were licensed, against 9 in the previous year. The recruiting operations of the special local agents were confined to the districts of Manbhum and Lohardaga in the Chota Nagpur Division. Manbhum contributed, as in 1895, almost the whole of the coolies recruited under this system—7,378 out of 7,940. The number of emigrants registered in 1896, through the special local agents, was 7,940, against 16,954 registered in 1895, the proportion of labourers to dependents was in both years about 3 to 1. This large decrease is said to be due to the expansion of the free emigration system of collecting labour, with which the special local agent's system would seem to work hand-in-hand; but the same reason was adduced last year to account for the increase of labourers recruited under this system in 1895, and the Lieutenant-Governor is unable to understand the explanation now given. Of the 7,940 registered in 1896, 7,387 were registered for Assam, 439 for Cachar, and 114 for Sylhet. The number of these emigrants that left the recruiting districts during the year under report for embarkation at Goalundo was 7,811, there being no casualties of any description during the journey to Goalundo. During the stay at that place, however, there were 19 discharges, 4 desertions, and 4 deaths. Three emigrants were left over at Goalundo at the close of 1895, so that the number despatched thence during 1896 amounted to 7,787, of whom 7,223 embarked for Assam, 342 for Cachar, and 222 for Sylhet. Out of the 7,223 embarked from Goalundo, there were 71 casualties by death and 19 by desertion on the way to Assam, the total casualties thus amounting to 1·24 per cent., against 0·62 in 1895. No casualties occurred on the journey to Cachar and Sylhet.

Eight hundred and forty emigrants of this class left for Assam *vid* Dhubri. Of these, 1 was left behind, 7 deserted, and 1 died on the journey, so that 831 arrived at Dhubri. During the stay at Dhubri there were 2 discharges, 2 desertions, and 5 deaths, thereby reducing the number to 822. During the steamer passage 2 emigrants were landed *en route* on account of sickness, 820 therefore arrived at their final destination.

6. *Certificated garden sardars and coolies recruited by them.*—There were 4,748 certificated garden sardars and 73 sardarnis during the year under report, as compared with 5,317 sardars and 164 sardarnis in the previous year. The marginal table gives the numbers for each of the last five years, and shows a continued increase up to the year 1895, but a decrease last year. This decrease has not been explained, but it does not indicate any decline in the popularity of the system of recruitment by garden sardars, for the numbers of emigrants registered under this system increased as will be seen below. The majority of the sardars, viz. 4,002, conducted their operations under the supervision of local Agents; and the number of these local Agents decreased in 1896 from 172 to 164. During the year under review six licenses of local Agents and nine certificates of garden-sardars were cancelled. The number of coolies registered by garden-sardars and sardarnis amounted to 9,037 and 93, against 8,336 and 65 respectively, in the previous year. Of these 9,130 emigrants, 7,516 were registered for Assam, 917 for Cachar, and 697 for Sylhet.

Years.	Number of Sardars.	Sardarnis.	Local Agents.
1892	3,609	163	120
1893	4,762	104	127
1894	5,274	156	138
1895	5,317	164	172
1896	4,748	73	164

The number of emigrants recruited by this method that left the districts of recruitment during the year under report for embarkation at Goalundo was 12,742, and of this number 16 were discharged, four deserted, and three died, at Goalundo. Of the remainder (12,719), 10,301 were despatched to Assam, 1,185 to Cachar, and 1,233 to Sylhet. Of the number that embarked from Goalundo,

161 died and 8 deserted, there were five births on the passage, thus 10,137 arrived in Assam, while 2,411 reached Cachar and Sylhet, with the loss of six by death and one by desertion.

One thousand and fifty-two emigrants, recruited by sardars, started for Assam *viâ* Dhubri, 7 died and 13 were released either on their way to Dhubri or during their stay at that place, so that the number embarked for Assam was 1.032. During the steamer journey, 13 emigrants were put ashore on account of illness, and five died, 1,014 being landed at their final destination.

7. *Free emigrants.*—No record is kept in the recruiting districts of the numbers of free emigrants leaving them, but the Emigration Agents at Goalundo and Dhubri supply more or less accurate information of the numbers passing through those places. Their reports show that 53,260 free emigrants left the recruiting districts for Goalundo and 5,754 for Dhubri, giving a total of 59,014 free emigrants, compared with 44,960 in 1895. Of the coolies who travelled *viâ* Goalundo, 10 deserted, 45 were discharged and eight died on their way to Goalundo, or during their stay at that place; the total casualties thus amounting to 63, or 0·11 per cent., compared with 102, or 0·23 per cent. in 1895. Thus 53,197 free emigrants proceeded onward from Goalundo. Of these, 16,783 were bound for Assam, of whom five deserted, and 55 died on the way, the total casualties amounting to 60, or 0·35, compared with 23, or 0·20 per cent. in 1895. There was one birth on the passage, so that the total number of emigrants who arrived at their destination was 16,724. The Cachar emigrants lost two by death on the journey and 10,054 reached their destination, the percentage of casualties being 0·01, against 0·03 in the previous year. Twenty-six thousand three hundred and forty reached Sylhet, the number of casualties on the way amounting to 18, viz., two by desertion, and 16 by death, or 0 07 against 0·01 in 1895.

Among the 5,754 emigrants who left the recruiting districts for Dhubri, the losses on the journey there numbered 224, or 3·89 per cent., against 177, or 7·95 per cent. in the previous year; so that 5,530 emigrants arrived at Dhubri. Besides this number, 15,241 free emigrants, who embarked at Goalundo, were landed at Dhubri for the purpose of executing contracts, raising the total number of arrivals at Dhubri to 20,771. Twenty free emigrants remained at Dhubri at the close of the previous year, and one infant was born there in 1896; 469 casualties occurred there, viz., 366 releases, 20 desertions, and 83 deaths, the percentage being 2·25, against 3·95 in 1895; so that 20,323 free emigrants were ready for embarkation. Of this number, 20,247 were embarked and 76 remained at Dhubri at the close of the year 1896. Of the number embarked, 19,482 free emigrants had executed labour contracts, and the remaining 765 proceeded as free emigrants. Of the number that embarked at Dhubri, 23 deserted on the steamer journey, 131 were landed *en route* on account of sickness and 72 died, the total percentage of casualties being 1·11 against 0·34 in 1895; so that, including 2 births on the passage, 20,023 free emigrants were landed at their destination.

8. *Execution of contracts.*—In the following statement are set forth the figures connected with the execution of contracts under the Assam Labour and Emigration Act, 1882:—

Place.	Two years.				Three years.				Four years.				Grand total.

During the year 14,492 contracts were executed, 19·10 per cent. being for three years and 80·89 for four years. In 1895 the number was 20,694 and the percentage 0·10 for two years, 18·67 for three years, and 81·22 for four years.

Taking the figures for Assam, Cachar, and Sylhet, separately, 5·56 and 94·43 per cent. of the Assam contracts were for three and four years, respectively. Of those for Cachar, 35·43 per cent. were for three years and 64·56 per cent. for four years, while for Sylhet the majority, viz., 79·11 per cent., were for three years, and the remainder 20·88 per cent. for four years.

9. *Offences connected with Emigration.*—Statistics of complaints made against coolies under Act I of 1882, and of complaints made by or on their behalf, of such offences as kidnapping and illegal restraint or confinement, are received quarterly from the recruiting districts, together with accounts of all cases of the latter description that come to trial. These returns are reviewed quarterly by Government, and it is, therefore, unnecessary to dwell upon the subject here.

10. *Inspection of cooly depôts and rest-houses.*—The Annual Reports on the inspection of cooly depôts and rest-houses, received from the Commissioners of Divisions and the Superintendent of Emigration, are reviewed separately. The Lieutenant-Governor does not, therefore, notice the subject in the present Resolution.

11. *Summary.*—The following table gives a summary of emigrants registered to proceed to the labour districts in Assam, *viâ* Calcutta, Goalundo, and Dhubri:—

	1895.				1896.			
	Viâ Calcutta.	*Viâ* Goalundo.	*Viâ* Dhubri.	Total.	*Viâ* Calcutta.	*Viâ* Goalundo.	*Viâ* Dhubri.	Total.

* The figures shown against "free emigrants" are approximate, as no correct statistics are available.

There was thus a considerable falling off in the supply of coolies obtained through special local agents, and a considerable increase in those recruited under the "free" system. Taking all classes of emigrants together, the results of the year's operations show that, during 1896, there was an increase of 20,857, in the number of coolies embarked for the labour districts in Assam, viz., from 73,821 to 94,678.

12. *Casualties.*—There has been a considerable increase in the total number of casualties during the year under report, being 1,623 against 1,280 in 1895. The mortality from cholera rose from 123 in 1895 to 495 in 1896, and the number of deaths from other causes also rose from 32 to 78. The number of casualties amongst free emigrants also increased from 860 in 1895 to 1,062 in 1896, and the number of deaths amongst this class of emigrants rose from 76 in 1895 to 298 in 1896.

13. It was noticed in last year's Resolution that the Report of the Labour Enquiry Commission was under the consideration of the Lieutenant-Governor. The Report was received in June 1896, and Sir Alexander Mackenzie recorded his views on the several recommendations of the Commission, and submitted them for the consideration of the Government of India.

14. Owing to the prevalence of cholera amongst emigrants in transit, it became necessary to take the most stringent measures to secure adequate sanitary arrangements. Surgeon-Captain J. C. S. Vaughan was accordingly deputed to inspect the lines of route by which emigrants travel to Assam, with instructions to enforce strictly the provisions of the rules under Act I of 1882, as amended

by Act VII of 1893, and the rules under Act I (B.C.) of 1889, so that further outbreaks might be prevented as far as possible. Dr. Vaughan's reports showed that the arrangements were far from satisfactory, and that a revision of the rules was necessary; this matter is now under the consideration of the Lieutenant-Governor. As another result of Dr. Vaughan's deputation, a Military Assistant Surgeon has been posted to Goalundo, and a Civil Hospital Assistant to Naihati, who will devote their whole time to superintending the sanitary and transit arrangements for emigrants at those places. New cholera hospitals have been opened at Samastipur, Katihar and Rampur Hát, along the emigrant routes, and efforts have been and are being made to improve the medical and other arrangements. It is hoped that they may in time meet with complete success.

By order of the Lieutenant-Governor of Bengal,

M. FINUCANE,

Secretary to the Government of Bengal.

RESOLUTION ON THE ANNUAL REPORT OF THE CIVIL VETERINARY DEPARTMENT IN BENGAL, FOR THE YEAR 1896-97.

REVENUE DEPARTMENT—AGRICULTURE.

Calcutta, the 27th July 1897.

RESOLUTION—No. 2252.

READ—

The Annual Report of the Civil Veterinary Department, Bengal, for the year 1896-97.

Letter from the Director of the Department of Land Records and Agriculture, No. 1085A., dated 1st July 1897, submitting the Report.

Read again—

This Government's Resolution No. 847T.R., dated 5th October 1896.

IN the Resolution mentioned in the preamble, Sir Alexander Mackenzie reviewed the progress made by the Bengal Civil Veterinary Department during the first four years of its existence and up to the departure of its first Superintendent, Veterinary-Captain W. D. Gunn. That officer was relieved on 12th October 1896 by Veterinary-Captain F. Raymond, who submits the present Report; and the Officiating Lieutenant-Governor is glad to observe that both the Department and the Veterinary Institution have continued to develope in the right direction.

2. *Bengal Veterinary Institution.*—The second final examination of the Institution was held in March last. Nine candidates passed out of fourteen who appeared; eight others were forbidden to appear on account of their irregular attendance at lectures. Veterinary-Captain Raymond suggests that the Committee of Examiners who visit the College yearly should hold an examination of the first-year as well as of the second-year students; the Inspector-General, Civil Veterinary Department, will be addressed with a view to this suggestion being carried out. The Officiating Lieutenant-Governor regrets to observe that the students holding stipends from local bodies and from the Burdwan Raj have not, as a rule, justified their selection, only three out of eight having passed the examination of their respective years. It is most satisfactory, however, that of the 21 passed students of the school (none of whom qualified before March 1896), no less than 13 are in permanent or temporary employment under Government, District Boards or private employers, while the rest are in private practice. There can be no doubt that the veterinary profession presents a new and promising career for young men, and His Honour trusts that the popularity of the institution will continue to increase as this fact becomes more widely known. The Hostel attached to the Institution has been finished since the close of the year, and is now ready for occupation. Further improvements are suggested for the school and infirmary, and some of these, it is hoped, may be carried out from time to time as funds become available. Veterinary-Captain Raymond puts forward strong arguments in favour of the extension of the school course from two years to three. As stated in the Resolution of 5th October 1896, this proposal has been submitted to the Government of India, and is still under their consideration.

3. *Infirmary for Animals.*—At the Veterinary Hospital 479 animals were treated as in-patients and 248 as out-patients, or 727 in all. The total shows a decrease of 46 cases, but the number of in-patients shows an increase of 42—a fact which no doubt indicates that confidence in the institution is growing among owners. The Superintendent proposes to modify the scale of fees with a view to securing a larger number of patients; the recommendations

of the Committee in this matter are awaited. An ambulance has recently been provided to convey sick animals to the hospital. The following statements show the number of each class of animals treated and the number of operations performed at the institution during the past four years:—

4. *Veterinary Dispensaries.*—There is a veterinary dispensary at Sitamarhi, supported mainly by local subscriptions, with a small grant from the District Board. The dispensary was opened only in November 1896, and the results so far have been very encouraging: 159 animals were treated before the end of the year, of whom 139 were cured, 9 died, and the results in the other 11 cases are unknown. At Patna the Municipality started a dispensary on 12th February to meet an attack of rinderpest; 236 cases were treated before 31st March. The Officiating Lieutenant-Governor trusts that the Municipality will place this institution, which clearly supplies a want, on a permanent footing. Veterinary assistants are now also either permanently or temporarily employed by the District Boards of Bhagalpur, Birbhum, Tippera, Midnapore, Patna, jointly with the Municipality, Darbhanga and Howrah, and by the Burdwan Raj.

In paragraph 9 of the Resolution of the 5th October 1896, Sir Alexander Mackenzie stated that he "intended to place before the local bodies of a certain number of districts a scheme for the establishment of veterinary dispensaries at head-quarters stations with a suitable staff, and to invite them to co-operate in carrying it out," and Veterinary-Captain Gunn was desired to draw up a detailed scheme for this purpose. Veterinary-Captain Gunn carried out these instructions before he left the Province, and his scheme is before Government.

5. *Diseases of Cattle.*—There is attached to the Report a synopsis of the transactions of the year in connection with cattle-disease, but the Superintendent expresses a doubt whether the figures given in this statement are even approximately correct. The Officiating Lieutenant-Governor shares this doubt, and desires to direct the attention of District Officers to this synopsis (Appendix XXVIIA), as well as to the instructions contained in Revenue Department Circular No. 4Agri., dated 6th February 1895. That circular directed that the occurrence of serious or epidemic disease among cattle should be reported direct, and, if necessary, by telegram, to the Superintendent, Civil Veterinary Department. It is clear that these orders are not being carried out; in many cases the Superintendent derived his first information of the outbreak of disease from a perusal of the Weather and Crop reports in the *Calcutta Gazette;* in very few cases did he receive direct information from the District Officer, and in some, Mr. Stevens regrets to observe, he had difficulty in obtaining replies to enquiries which he addressed to District Officers with regard to the reports published in the Gazette. It is satisfactory, however, that Veterinary Assistants were sent to combat outbreaks in the following districts:—

Bankura.	Saran.
Midnapore.	Muzaffarpur.
Hooghly.	Bhagalpur.
Rangpur.	Purnea.
Patna.	Jalpaiguri.

Angul.

Veterinary-Captain Raymond's general suggestions for the check of rinderpest and other cattle-disease are full of interest, and are under the consideration of Government. But whatever may be the most suitable method of coping with these epidemics, it is essential that the Veterinary Department should receive the earliest and most accurate information possible of their occurrence. His Honour trusts that the current year will show a considerable improvement in this respect.

6. *Cattle-breeding.*—The attempts which have been made in these Provinces to improve the breed of cattle were briefly noticed in paragraph 12 of the Resolution of 5th October 1896. The experiment of introducing Brahmini bulls from Bihar into Lower Bengal, which has been tried in the past two years, has not, so far, been attended with much success; and Veterinary-Captain Raymond promises a general report on cattle-breeding in Bengal, which the Officiating Lieutenant-Governor will await with interest. It is reported that, in Birbhum, Patna rams have been introduced into the flocks with the result of a large increase in the value of the stock; and this example is one that might probably be followed with advantage in other districts. A description is given in the Report of prize-shows held in connection with the fairs at Sonepur, Berhampore, Kalimpong and Suri. The fair and show at the latter place were held for the first time, and appear to have been most successful; an account of the arrangements which contributed to their success is given, and may afford useful assistance to officers organizing similar functions elsewhere. These shows and competitions must have an excellent effect in encouraging agricultural improvement, and the Officiating Lieutenant-Governor would like to see them become more general.

7. Veterinary-Captain Raymond was on tour for 72 days, and travelled more than 6,000 miles. His Honour's thanks are due to him for the zeal and energy with which he has entered upon his new duties, and for his able and interesting report. They are likewise due to Messrs. Macpherson and Lyon for their supervision of the Department; as well as to the Committee of Management of the Bengal Veterinary Institution.

By order of the Lieutenant-Governor of Bengal,

M. FINUCANE,

Secretary to the Government of Bengal.

Foreign Ports.

The exports of rice from Calcutta to foreign ports declined from 148,014 cwts. in the second week of July 1896 to 22,242 cwts. in the period under report. During the week ending 14th July 1896, Natal took 31,412 cwts., and States in Arabia other than Muscat 44,851 cwts., while in the week under report nothing was sent to those ports; the falling off in the exports to Ceylon was 33,445 cwts., to Aden 17,720 cwts., and to the United Kingdom 5,720 cwts., in comparison with the corresponding week of last year. On the other hand, 7,805 cwts. were shipped for Muscat, which received nothing in the corresponding week of 1896. The chief fluctuation in the trade in gram and pulses is a decrease of 15,560 cwts. in the quantity sent to the United Kingdom.

Indian Ports.

As regards Indian ports, the exports of rice to Bombay showed an increase of 3,898 cwts. compared with the corresponding week of last year; while Narrakel in Cochin is credited with 2,746 cwts. against nil in the second week of July 1896. The fluctuations under other heads call for no remarks.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

The chief feature of the traffic of the week under review is a large importation of Burma rice into Chittagong, namely, 27,747 cwts, against 165 cwts. in the corresponding period of last year; the imports into Narayanganj also showed an increase of 2,025 cwts. of rice in the supplies received from Chittagong. The exports from Balasore to Calcutta showed a heavy decrease of 16,748 cwts., in comparison with the figures for the corresponding period of last year.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

) mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.
) maximum and minimum temperatures are obtained from self-registering thermometers. All the ıeters are verified and the readings have been corrected to a standard constructed and verified at the servatory. They are exposed under a thatched shed open at the sides, and are suspended four feet ıe ground.
) barometer readings are corrected approximately to those of the standard, Newman's No. 86, 7 at the Surveyor-General's Office.
) hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in orological Office, and based on Regnault's modifications of August's formula.
) directions and the movement of the wind are taken from the trace of a Beckley's anemograph.
) mouth of the rain-gauge is one foot above the ground.

NOTIFICATION.—No. 4336A.

The 2nd August 1897.—An examination of candidates for recruiting the staff of the superior Police Officers in Bengal and Assam will be held in Calcutta in December 1897 on dates to be notified hereafter.

2. At this examination only such European candidates as have been nominated by the Lieutenant-Governor of Bengal will be permitted to present themselves.

3. The candidate should submit a copy of his baptismal certificate, in the absence of which sufficient evidence as to age should be forwarded with the application for admission to the examination. His age, when examined, must not be below 19 or above 24 years. A medical certificate in the form annexed will be required from each selected candidate after he has passed the competitive examination and before he is appointed to the service. The certificate will be granted by a Presidency Surgeon, viz., the Professor of Midwifery, Medical College, on the requisition of the Under-Secretary to Government, to whom applications should be made. In the event of the opinion of the medical officer being unfavourable to the candidate, an appeal will lie to the Medical Board, and the decision of the Board will be final.

4. A certificate that the candidate is able to ride, and is of active habits, signed by a District Magistrate or by the Commissioner of Police, Calcutta, must also be submitted.

5. Applications, accompanied by the necessary certificates, except medical certificate, must be sent to the Private Secretary to His Honour the Lieutenant-Governor not later than two months before the examination is held. Such applicants as are granted nominations will receive an intimation to that effect.

6. The subjects of examination and the number of marks to be allotted will be as follows:—

	Marks.	
Writing and composition: Impromptu essay upon some given subject	150	
Arithmetic (no special text-book) and Euclid, Books I to IV and VI; also easy Deductions ...		
Algebra up to and including the Binomial Theorem (text-book Todhunter's Algebra)	300	
Plane Trigonometry up to and including the Solution of Triangles and Mensuration (text-book—Todhunter's Plane Trigonometry)		
Not more than *two* of the following languages :—		
Latin, Greek, Sanskrit, Arabic, French, German, Persian or *one* of the vernacular* languages of the Province, *i.e.*, either Hindi (Kaithi character) or Bengali	200	each.
English History and Literature and Indian History (Elementary)	200	
Geography: Asia (especially India) and Europe ...	150	
Total ...	1,200	

* NOTE.—The vernacular standard will be a high one, involving a thorough knowledge of the language and ability to write and read the written character with facility.

7. Candidates who have been permitted to appear at the examination must intimate to the Under-Secretary to the Government of Bengal in the Appointment Department, at least one month before the examination is held, which are the two languages in which they desire to be examined. They must at the same time remit a fee of Rs. 20, and unless this fee is paid, will not be allowed to appear at the examination.

8. Three candidates will be selected at the next examination. The candidate who obtains the highest marks will, on his producing the required medical certificate and subject to such further examination in riding as the Lieutenant-Governor may prescribe, be appointed as a probationary Assistant Superintendent of Police in the first vacancy; the candidate who obtains the second place will, subject to the same conditions, be appointed in the second vacancy and the third, subject to the same conditions, in the third vacancy. No candidate will be admitted to the department who obtains less than 500 marks in all.

9. A candidate is not allowed to compete at the examination for admission to the Police Department more than twice.

A. D. MCARTHUR, *Col.*, R.E.,
Secy. to the Govt. of Bengal.

IRRIGATION DEPARTMENT.

[Sixth Publication.]

The 29th June 1897.

No. 176—Notification.—In exercise of the powers conferred on him by sections XI and XII of Act V (B.C.) of 1864 (The Canals Act), the Lieutenant-Governor of Bengal proposes to pass the following rules in regard to the line of channel connecting the Kurnafuli and the Chandkhali rivers, known in its various parts as Sikalbaha and Murali khals, in the district of Chittagong.

A. D. MCARTHUR, *Colonel*, R.E.,
Secy. to the Govt. of Bengal.

1. Every vessel on entering the above channel shall be liable to measurement by the officer in charge of the toll station for the purpose of ascertaining the amount of toll to be paid.

2. The tonnage of every vessel, whether laden or empty, shall, for the purposes of the *Canals Act* and of these rules, be determined by the following measurements :—

(*a*) The product of half the length of the vessel from stem to stern measured along the water line, multiplied by the interior greatest breath of the vessel, multiplied by the depth from the water line to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.

(*b*) The measurement of the length is to be made in feet, rejecting inches. The measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(*c*) In calculating the amount of toll to be levied, any fraction of 100 maunds less than 50 maunds is to be omitted; and a fraction exceeding 50 maunds is to be charged as 50 maunds only.

3. No raft will be admitted into the channel in excess of 50 feet in length or 5 feet in breadth. No timber, bamboos or grass will be admitted except securely and compactly packed in the form of a raft.

4. Every vessel entering the channel shall be furnished with a ticket on paying the prescribed toll. The ticket will specify the date of entry, the maundage of the vessel and the amount of toll paid.

5. No vessels whatever except such as are employed on works connected with the maintenance or improvement of the channel shall be exempted from paying toll.

6. Every vessel or raft which has paid toll shall be allowed three days to pass through the channel, the days of entering and leaving being both included, and any vessel or raft remaining in any part of the channel longer than the period above fixed shall, for each day in excess of such period, be charged demurrage equal to one-half of the toll paid. Every vessel or raft remaining in the channel more than one month without authority from the Supervisor shall be subject to be summarily removed.

7. Any person infringing any of the above rules, or wilfully interfering in their enforcement, shall be liable, under section XI of the Canals Act, to a fine not exceeding fifty rupees for any one offence.

RAILWAY DEPARTMENT.

The 3rd August 1897.

No. 113.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for watering arrangements at Barakar, East Indian Railway, in the villages of Begunia and Monboria, pargana Kanthanagor, zilla Burdwan, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 bighas 9 cottahs 14·66 chitaks of standard measurement (corresponding to 3 roods 12·01 poles), bounded by a nick on the ground, is required within the aforesaid villages of Begunia and Monboria.

Mines of coal, iron-stone, slate or other minerals lying under the land, or any particular portion of the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of the work for the purpose of which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6, Act I of 1894, and section 3, clause (1), Act XVIII of 1885, to all whom it may concern.

J. G. H. GLASS,
Secy. to the Govt. of Bengal.

MARINE DEPARTMENT.

The 29th July 1897.

[DECLARATION.]

No. 140Marine.—Whereas under declaration No. 93, dated the 12th March 1895, published in Part I, page 193 of the *Calcutta Gazette* of the 13th idem, certain land therein specified was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for the East Indian Coal Company's siding No. 2 in the village of Khendwadeeh on the Damuda Branch of the Jherriah extension of the East Indian Railway; and whereas a coal mine is situate under the said land; and whereas the East Indian Coal Company have entered into an agreement with the East Indian Railway Company to work the coal lying in that mine; and whereas the said Coal Company have given notice to the Bengal Government, in accordance with the provisions of Act XVIII of 1885, that after the expiry of sixty days from the date of notice, they, the said Coal Company, intend to work the said mine and get the minerals lying underneath the said land; and whereas the mine has been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885; and whereas it appears to the Bengal Government that the working of and getting of coal from such portions of the said mine as underlie the said land is likely to cause damage to the surface of the said land and to the works constructed thereon:

Now, therefore, the Lieutenant-Governor of Bengal is pleased to declare, under section 5, sub-section (2), clause (*b*) of the abovementioned Act XVIII (I.C.) of 1885, that the Bengal Government is willing to pay any compensation as, being not incompatible with the terms of any contract that may have been entered into with the East Indian Railway Company, shall be determined, in accordance with the provisions of Act I (I.C.) of 1894, to be due to any person having an interest in the said coal mine, in consideration of the mine being worked and the coal be gotten therefrom by the abovementioned East Indian Coal Company in the manner and subject to the restrictions below specified, viz.:—

That in such portion or portions of the mine as underlie the land, which, as above stated, has been acquired by the Bengal Government, the maximum width of the galleries that are intended to be driven for the purpose of working the mine shall not exceed twelve feet.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Shahabad, will be put up to sale at the Arrah Collectorate on Monday, the 20th September 1897, corresponding with 9th Ashin 1305 F.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of sale.

1st.—The estates to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchasers of these estate will be considered as the proprietors of the estate, and the entire proprietary right of Government in such estates will be transferred to them subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of cultivators recorded in the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchasers after issue of advertisement, as in the case of original sale.

5th.—The sale of two Kusalpurs, Nos. 1334 and 1335, will be subject to existing leases and to the rights conferred by the settlement proceedings and by laws in force, and purchasers will be bound to respect the rights of such lessees till the expiry of the period of their settlement:—

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876 :—

A Dictionary of the Economic Products of India

BY DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

The first five volumes and Vol. VI, Parts I, II, III & IV of the Dictionary are ready at the Office of the Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs. 45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, Rs. 2-6 per volume. For copies bound in half calf or half morocco, Rs. 6 and 8 shillings, respectively, will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross-references, so that little difficulty need be experienced in finding the account of a product, even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal 8vo. pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G.; Vol. IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of O; Vol. VI (which consist of four parts), Part I, contains letters P to R. The whole work completed in nine volumes (including Parts II to IV of Vol. VI); but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the Vernacular and European names of the plants, animals and minerals of India, and, as such, will be a work of reference, which, it is hoped, may prove of considerable value.

Present:

The Hon'ble C. C. STEVENS, C.S.I., Offg. Lieutenant-Governor of Bengal, *presiding.*

NEW MEMBERS.

The Hon'ble Messrs. Toynbee and Turner, and the Hon'ble Babus Norendra Nath Sen, Saligram Singh and Kali Charan Banerjee, took their seats in Council.

STATEMENT OF THE COURSE OF BUSINESS.

The Hon'ble THE PRESIDENT said:—"Gentlemen—I have to thank you for your presence here this morning. Since the Council last met, there have been changes in its composition, and more are imminent. We have lost the services of Mr. A. M. Bose, who represented the Calcutta University, and Babu Eshan Chandra Mittra, representing the Municipalities of the Burdwan Division; while on Monday next, Babu Guru Proshad Sen, representing the District Boards of the Dacca Division, will vacate his seat. To each and all of these gentlemen I offer, on behalf of the Province which they have served, the acknowledgment of Government for the valuable assistance which they have given during their terms of office. The Hon'ble Babu Surendranath Banerjee left us only to return speedily, and I may take this opportunity of saying that the Hon'ble the Maharaja of Darbhanga has been so good as to place his valuable services once more at the disposal of the Province. My gratitude to these gentlemen, therefore, partakes of the nature of a lively sense of favours to come. We have to welcome new colleagues in the place of those who are now leaving us. I hope they will permit me to say that their past histories and reputation afford us a guarantee that they will prove themselves most useful Members of this Council. They will find that the work which they have undertaken will make considerable demands on their time and attention. Their labours are not to be measured by the time spent in meetings in this Chamber. Attendance on Select Committees, and the persual and examination of papers connected with projects of law, are not the less laborious because they are not conspicuous in the sight of the public.

"Your labours this Session will not, I think, be severe, though they will be of some importance. The Partition Bill has received further criticisms, and these will be laid before the Select Committee. The points are for the most part matters of detail, and are not likely to detain the Select Committee long. It is hoped that the Bill will be passed in the course of this Session. The Select Committee will also proceed with the Chota Nagpur Tenancy Bill; this Bill, as has been explained fully by the Hon'ble Member in charge, is of a local character, and is intended to meet local wants. You will probably be greatly guided by the opinions of those who are familiar with the local conditions. It is not improbable that we shall be able to pass this Bill also. I shall not ask you to consider at present the Bengal Tenancy Bill. Some criticisms on it have been received, and Government will be glad to receive any further expressions of opinion on its provisions, with which they may be favoured; so that on Sir Alexander Mackenzie's return, his Government may be in a position to consider it in the full light of public opinion."

ESTATES PARTITION BILL.

The Hon'ble Mr. Finucane moved that the Hon'ble Sahibzada Mahomed Bakhtyar Shah be added to the Select Committee on the Bill to amend the law relating to the Partition of Estates, and that the Hon'ble Mr. Pratt and the Hon'ble Babu Saligram Singh be also added in place of Mr. Wilkins and Rai Eshan Chandra Mittra, Bahadur, respectively.

The Motion was put and agreed to.

CHOTA NAGPUR TENANCY BILL.

The Hon'ble Mr. Grimley moved that the Hon'ble Mr. Pratt, the Hon'ble Maharaja Bahadur of Gidhaur, and the Hon'ble Babu Saligram Singh be added to the Select Committee on the Chota Nagpur Tenancy Bill in place of Mr. Wilkins, Mr. A. M. Bose and Rai Eshan Chandra Mittra, Bahadur, respectively.

The Motion was put and agreed to.

The Council adjourned to a date to be notified hereafter.

NOTIFICATION.

No. 3930M.—The 30th July 1897.—The following is published for general information.

C. E. A. W. OLDHAM,
Offg. Secy. to the Govt. of Bengal.

WORKING OF THE FIRE BRIGADE IN THE TOWN AND SUBURBS OF CALCUTTA AND IN THE MUNICIPALITY OF HOWRAH FOR THE YEAR 1896-97.

No. 7034, dated Calcutta, the 21st July 1897.

From—A. H. JAMES, Esq., Commissioner of Police, Calcutta,
To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit, under section 30 of Act IV of 1883, a report on the working of the Fire Brigade in the Town and Suburbs of Calcutta and in Howrah during 1896-97.

2. During the year 60 fires occurred, in each of which the value of the property destroyed exceeded Rs. 50 in value.

At 45 of these the Brigade were in attendance, and 15 were extinguished by the out-station manual engines and the residents of the locality.

3. In addition to the 60 serious fires already noted, 161 other petty fires occurred,—54 in the Town of Calcutta, 98 in the Suburbs and 9 in Howrah. The Brigade attended 24 of these fires; the remaining 137 were extinguished by the out-station manual engines and residents of the localities.

The average value of property destroyed at these fires was Rs. 6.

The estimated value of property destroyed during the year amounted to Rs. 1,13,505 as against Rs. 6,93,647 in 1895-96.

4. There was loss of life at two fires only during the year, viz.—

In a fire at No. 51, Free School Street, a child, aged five years, was suffocated, and at a fire at Sahib Bagan, Sibpur, a blind girl, aged seven years, was burnt to death.

5. There were seven fires in buildings licensed under Act I (B.C.) of 1893 and Act I (B.C.) of 1894. Property to the value of Rs. 25,532 was destroyed.

6. Of the above fires that occurred during the year, four call for special notice—

I. On the 15th April, at 51, Free School Street, a large stock of lace was burnt, and a child as abovementioned was suffocated.

II. At Chitla, on the 15th April, 166 tiled and goleputta huts and 3 large wood depôts were destroyed. This fire burnt furiously for three hours.

III. Again at Chitla, on the 20th April, on ground adjoining that of the fire of the 15th, 55 tiled and goleputta huts and 3 large corrugated iron sheds were burnt to the ground, but without loss of life. The fire lasted two and-a-half hours.

IV. At Subjee Bagan, Chitla, on the 27th February 1897, a large corrugated iron shed and a quantity of rice insured for Rs. 28,600 were destroyed. This fire burnt and smouldered for nineteen hours.

7. During the year one prosecution was instituted under the Explosives Act. The defendant was acquitted.

8. A memorandum of the fires that occurred and a statement showing receipts and expenditure on behalf of the Brigade are enclosed.

STATISTICS OF THE SEA-BORNE TRAFFIC OF CALCUTTA IN FOOD-GRAINS.

No. 2016 Statistics.—The following memorandum and statements are published for general information.

M. FINUCANE,
Secy. to the Govt. of Bengal.

STATISTICAL DEPARTMENT,
The 3rd August 1897.

Memorandum.

The sea-borne import and export traffic of Calcutta in food-grains during the week ending 21st July 1896, and the corresponding period of 1897, is shown in the following statement:—

Imports.—During the week under report, the imports of rice amounted to 148,979 cwts., against 72,452 cwts. in the corresponding week of 1896. The amount imported from Burma amounted to 132,521 cwts., against nil in the corresponding period of last year; while Chandbali sent only 9,883 cwts. against 70,007 cwts., but the imports from Balasore showed a slight increase of 1,958 cwts. The imports of 677 cwts. of rice from foreign ports came from the Straits Settlements, which sent nothing in the corresponding period of last year. Supplies of paddy fell off from 36,046 cwts. to 4,482 cwts., owing chiefly to small imports from Chandbali. Gram and pulses were imported from Madras and the Straits Settlements.

Exports.—In the following statement the total quantity of each kind of food-grain exported by sea during the week ending 21st July 1897 is compared with the figures for the corresponding period of 1896 :—

Foreign Ports.

The exports of rice from Calcutta to foreign ports were 59,165 cwts. in the third week of July 1896, and only 31,102 cwts. in the period under report. The chief fluctuation occurred in the exports to Ceylon, only 315 cwts. against 28,968 cwts. in the corresponding week of last year. The falling off under gram and pulses was due to smaller quantities being sent to the United Kingdom, while in the case of miscellaneous food-grains, Mauritius is credited with only 2,047 cwts. against 5,132 cwts. in the week ending the 21st July 1896.

Indian Ports.

As regards Indian ports, the exports of rice to Bombay during the week ending 21st July 1896 amounted to 6,085 cwts., while in the week under report nothing was sent to that port. A large supply of wheat, aggregating 7,700 cwts., was despatched to Rangoon against 1,687 cwts. in the corresponding period of last year. The falling off under gram and pulses occurred chiefly in the exports to Bombay, to ports in Madras and to Narrakal in Cochin.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

During the week under report, the imports of rice into Chittagong from Burma fell off by 3,771 cwts. in comparison with those of the 1st week of July 1896, but the exports from that port to Narayanganj rose from 735 cwts. to 3,233 cwts. The largest falling off, however, occurred in the exports from False Point, which exported only 2,836 cwts. against 83,950 cwts. (sent to Mauritius and Columbo) during the week ending 7th July 1896.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

☁, dew; o, overcast; t thunder; p, passing temporary showers; d, drizzling rain; g, gloomy.

IRRIGATION DEPARTMENT.

The 9th August 1897.

No. 215.—Notification.—In exercise of the powers conferred on him by sections XI and XII of Act V (B.C.) of 1864 (The Bengal Canals Act), the Lieutenant-Governor of Bengal is pleased to pass the following rules in regard to the line of channel connecting the Kurnafuli and the Chandkhali rivers, known in its various parts as Sikalbaha and Murali khals, in the district of Chittagong, with effect from 1st September 1897.

A draft of these rules as proposed was published in this Department's Notification No. 176, of the 29th June 1897, for a period of six weeks in the *Calcutta Gazette* of the dates noted in the margin.

30th June, 7th, 14th, 21st and 28th July, and 4th August 1897.

A. D. MCARTHUR, *Colonel*, R.E.,
Secy. to the Govt. of Bengal.

1. Every vessel on entering the above channel shall be liable to measurement by the officer in charge of the toll station for the purpose of ascertaining the amount of toll to be paid.

2. The tonnage of every vessel, whether laden or empty, shall, for the purposes of the *Canals Act* and of these rules, be determined by the following measurements :—

(*a*) The product of half the length of the vessel from stem to stern measured along the water line, multiplied by the interior greatest breath of the vessel, multiplied by the depth from the water line to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.

(*b*) The measurement of the length is to be made in feet, rejecting inches. The measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(*c*) In calculating the amount of toll to be levied, any fraction of 100 maunds less than 50 maunds is to be omitted ; and a fraction exceeding 50 maunds is to be charged as 50 maunds only.

3. No raft will be admitted into the channel in excess of 50 feet in length or 5 feet in breadth. No timber, bamboos or grass will be admitted except securely and compactly packed in the form of a raft.

4. Every vessel entering the channel shall be furnished with a ticket on paying the prescribed toll. The ticket will specify the date of entry, the maundage of the vessel and the amount of toll paid.

5. No vessels whatever except such as are employed on works connected with the maintenance or improvement of the channel shall be exempted from paying toll.

6. Every vessel or raft which has paid toll shall be allowed three days to pass through the channel, the days of entering and leaving being both included, and any vessel or raft remaining in any part of the channel longer than the period above fixed shall, for each day in excess of such period, be charged demurrage equal to one-half of the toll paid. Every vessel or raft remaining in the channel more than one month without authority from the Supervisor shall be subject to be summarily removed.

7. Any person infringing any of the above rules, or wilfully interfering in their enforcement, shall be liable, under section XI of the Canals Act, to a fine not exceeding fifty rupees for any one offence.

The 9th August 1897.

No. 216.—Notification.—It is notified for general information that, under the power vested in him by section XIII of Act V (B.C.) of 1864 (the Bengal Canals Act), His Honour the Lieutenant-Governor is pleased to appoint the Chairman of the District Board of Chittagong, for the time being, to be Supervisor of the line of channel connecting the Karnafuli and the Chandkhali rivers known in its various parts as Sikalbaha and Murali khals, in the district of Chittagong.

No. 146Marine.—The following communication, dated the 26th June 1897, from Sir Francis Clare Ford, with its enclosure, relative to the Italian Maritime Sanitary Ordinance No. 5 issued with a view to prevent delays to vessels arriving in Italian ports from infected districts in India, is published for general information.

A. D. MCARTHUR, *Col.*, R.E.,
Secy. to the Govt. of Bengal.

No. 42C., dated Foreign Office, the 1st July 1897.

From—GEORGE CURZON, ESQ.,
To—The Under-Secretary of State, India Office.

I AM directed by the Secretary of State for Foreign Affairs to transmit to you, to be laid before the Secretary of State for India, the accompanying copy of a despatch as marked in the margin enclosing the Italian Maritime Sanitary Ordinance No. 5, intended to obviate delays to vessels arriving in Italy from India.

No. 42C., dated Rome, the 26th June 1897.

From—FRANCIS CLARE FORD, ESQ.,
To—The Marquess of Salisbury, K.G., &c., &c., &c.

I HAVE the honour to transmit herewith to Your Lordship a copy in triplicate, together with a translation of the Sanitary Maritime Ordinance marked No. 5, and dated the 20th instant, which I have received from the Department for Foreign Affairs.

The present Ordinance has been made with a view to preventing, as far as possible, delays to vessels arriving in Italian ports from infected districts in India.

It will now be possible for the owners and Captains of vessels to enlist the services, should they desire it, of Italian medical officers who would accompany the vessels from Port Said to the Italian ports to which they may be bound, and thus the delay to those vessels arriving there would be almost nominal.

(TRANSLATION.)

Ministry of the Interior.

1897.—Sanitary Maritime Ordinance No. 5.—For the purpose of affording shipping and trade all the facilities consistent with the requirements of the Sanitary Service and particularly for the purpose of avoiding delays in granting free pratique to steamers which, though free from disease, have to undergo medical inspection and disinfection for the sole reason of their coming from a place infected by plague.

Seen the Law of 22nd December 1888, No. 5849 (3rd series), for the protection of hygiene and public health.

The Minister of the Interior decrees:—In cases when the owners or masters of steamers coming from Indian ports specified in the Maritime Sanitary Ordinance of the 1st of May last, and bound for Italy, make a formal application to that effect, a doctor, to be appointed in each case by this Ministry, can be embarked on such steamers at Port Said.

Section 2.—The said doctor will be entrusted with the general sanitary surveillance on board the ship during the crossing from Port Said to the Italian ports of destination, and within 24 hours preceding the arrival of the steamer in an Italian port, he is to ascertain that the disinfection of the soiled articles of wearing or domestic apparel has been carried out, and will proceed to a medical examination of all persons on board.

Section 3.—It will besides be the doctor's duty to lodge, with the Harbour authorities on arival of the steamer, a written declaration showing the hygiene and sanitary conditions on board, and suggesting the treatment to be adopted. Should everything prove to be in good order, the steamer will, as far as the sanitary formalities are concerned, be admitted

to free pratique. Should, however, any abnormal circumstance have been detected, the steamer will in that case have to undergo all those measures which are in respect of the various cases set forth in the Sanitary Maritime Ordinances now in force.

Section 4.—The above-mentioned doctor will be entitled to passage and first-class fare on board, free of charge, and his fee, which in each case shall be fixed with the approval of this Ministry, will be defrayed by the Masters of the Steamers.

Section 5.—The dispositions of Sanitary Maritime Ordinance of 8th May last, No. 3, remain unchanged in their substance, as the present Ordinance is meant only to modify the formalities regarding the carrying out of the medical inspection and of the disinfections of such steamers as were constantly in a normal condition from the time of their departure to that of arrival.

The Prefects of the Maritime Provinces and the Harbour authorities of the Kingdom are charged with the execution of the present Ordinance.

For the Minister,

BERTARELLI.

AUSTRALIA—INVESTIGATOR STRAIT—KANGAROO ISLAND—NEPEAN BAY.

Buoys placed to indicate line of telegraph cable.

THE President, Marine Board, Port Adelaide, has given notice (No. 4 of 1897) that, for the purpose of indicating the line of telegraph cable between Yankalilla and Kingscote, a bell buoy, painted green, has been placed in latitude 35° 41½′ south, longitude 137° 42½′ east, in three and three-quarter fathoms of water L.W.S.; and a green perch buoy off Bear Point, in latitude 35° 40′ south, longtitude 37° 39′ 50″ east, in three and a quarter fathoms L.W.S. These two buoys in line and the two beacons on shore at Kingscote bear north 72° west, and south 72° east cor. mag.; and masters of vessels are hereby cautioned that when anchoring they must keep well north or south of that line to avoid the telegraph cable.

This notice, which affects chart No. 2389A, cancels notices Nos. 4 and 5 of 1884.

REPORT ON THE WORKING OF THE LICENSED WAREHOUSE AND FIRE BRIGADE ACT, 1893, IN CALCUTTA DURING THE YEAR 1896-97.

No. 4100M.—The 7th August 1897.—The following report is published for general information.

C. E. A. W. OLDHAM,
Offg. Secy. to the Government of Bengal.

No. 188J., dated Calcutta, the 30th July 1897.

From—W. R. BRIGHT, Esq., Offg. Chairman of the Corporation of Calcutta,
To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit the following report under section 41 of Act I of 1893 (B.C.) of the Warehouses in Calcutta for the year ended 31st March 1897.

2. During the year under report, the Commissioners, at their Ordinary Monthly Meeting held on the 4th June 1896, reduced the rate at which fees

under section 10 of the aforesaid Act had hitherto been levied to 7½ per cent. on the annual valuation of the warehouses, and the fees were levied accordingly.

3. The following statement shows the number of applications for licenses received and what happened to them:—

Applications.		Total.	Nature of application.	No. sanctioned.	No. refused.	No. pending.
Pending since last year.	Received during the year.					
1	2	3	4	5	6	7

Amount of fines	487	0	9
Mutation fees	140	0	0
Miscellaneous	0	8	0
Total	26,617	0	9

5. Of 520 warehouses, which had been licensed in 1895-96, the licenses of 487 were renewed, those of 5 cancelled, as they were reported vacant or unoccupied, or not assessable under the Act, having less than 50 maunds of materials, while the license fees of 28 still remained unrealised when the year came to a close.

6. The following statement shows the receipts and disbursements of the Warehouse Fund during the year 1896-97:—

STATISTICS OF THE SEA-BORNE TRAFFIC OF CALCUTTA IN FOOD-GRAINS.

No. 2063 Statistics.—The following memorandum and statements are published for general information.

M. FINUCANE,
Secy. to the Govt. of Bengal.

STATISTICAL DEPARTMENT,
The 10th August 1897.

Memorandum.

The sea-borne import and export traffic of Calcutta in food-grains during the 10 days from 22nd to 31st July 1896, and the corresponding period of 1897, is shown in the following statement:—

Imports.—During the period under report, the imports of rice amounted to 201,799 cwts., against 20,840 cwts. in the last 10 days of July 1896. The amount coming from Burma was 175,130 cwts., against nil in the corresponding period of last year. Chandbali sent only 9,312 cwts., against 17,926 cwts. in the last 10 days of July 1896, while the imports from Balasore showed a slight increase of 3,753 cwts. The imports from the Straits Settlements amounted to 5,809 cwts., against nil in the corresponding period of last year. Supplies of paddy rose from 6,731 cwts. to 16,833 cwts., owing chiefly to large imports from Burma. Gram and pulses were imported from Madras, Burma, and the Straits Settlements.

Exports.—In the following statement the total quantity of each kind of food-grain exported by sea during the last 10 days of July 1897 is compared with the figures for the corresponding period of 1896 :—

Foreign Ports.

The exports of rice from Calcutta to foreign ports declined from 116,556 cwts. in the last 10 days of July 1896 to 12,615 cwts. in the period under report. The decline was chiefly due to the absence in 1897 of shipments to Réunion, Natal, Cape Colony and Mauritius, to which ports 47,262 cwts., 18,853 cwts., 6,279 cwts., and 3,865 cwts. respectively were exported in the 10 days ending 31st July 1896. The despatches to Ceylon fell from 27,687 cwts. to only 1,180 cwts., while those to the United Kingdom increased by 3,497 cwts. The decrease under gram and pulses and miscellaneous food-grains was chiefly due to the cessation of exports to Mauritius and Natal.

Indian Ports.

As regards Indian ports, the exports of rice to Bombay during the 10 days ending 31st July 1896 amounted to 13,439 cwts., and in the period under report to only 1,005 cwts. Under gram and pulses, Bombay received nothing as against 2,738 cwts. in the corresponding period of last year, while the decline in the exports to the Madras ports amounted to 6,762 cwts.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·6° higher; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h , 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers.

HIGH COURT NOTICE.

EXISTING RULE.

Rule 24.—[Instructions as to the filling up of the Sessions Judge's Calendar,—Circular Order No. 5 of 14th October 1879].

* * * * * *

(*d*) In the column of remarks, Sessions Judges should state the ground of postponement when any trial is postponed, the period of any solitary confinement awarded to any prisoner, the fact, if it be so, that the sentence passed on any prisoner is in addition to any other sentence in a different case passed at the same Sessions, or one which is to take effect on the expiration of another sentence which the prisoner may be undergoing, the opinion of the Judge regarding the verdict delivered by the Jury stating whether it had his concurrence, and whether he thought that the evidence in the case warranted the particular finding, with the reasons for any difference of opinion,[1] and the grounds on which any person punishable with death has been sentenced to any punishment other than death (section 374, Code of Criminal Procedure), the reasons which have prompted a specially light or specially severe sentence in any particular case, and generally any matter necessary to enable the High Court to exercise the power of revision vested in it by Chapter XXXII of the Criminal Procedure Code.

(1) Such reasons need not be given in the case of trials held with the aid of Assessors.

CIRCULAR ORDER.

Issued by Authority of the High Court of Judicature at Fort William in Bengal.

(CRIMINAL.)

No. 1, dated the 12th July, 1897.

After clause (*d*) of Rule 24, Chapter I at page 20 of the High Court's General Rules and Circular Orders, Criminal, *insert* the following:—

Whenever an enhanced sentence is passed upon an accused in connection with a charge within the terms of section 75 of the Indian Penal Code, the Sessions Judge should enter in the column for remarks the date of the last previous conviction and the sentence passed on that occasion, as well as the total number of previous convictions proved or admitted.

Sheriff's Office, the 28th July 1897.

NOTICE is hereby given that the Fourth Criminal Sessions of the year 1897 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Wednesday, the eighteenth day of August next, at 11 o'clock in the forenoon, and so on from day to day until the said Sessions be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

NOTIFICATION.

Simla, the 13th August, 1897.

No. 1669.—The following letter from Her Majesty the Queen, Empress of India, published in the Supplement to the *London Gazette*, dated the 16th July 1897, is republished for general information:—

Whitehall, July 16th, 1897.

The following letter from The Queen has been received by the Right Honourable the Secretary of State for the Home Department:—

Windsor Castle, July 15th, 1897.

I have frequently expressed my personal feelings to my people, and though on this memorable occasion there have been many official expressions of my deep sense of the unbounded loyalty evinced, I cannot rest satisfied without personally giving utterance to these sentiments.

It is difficult for me on this occasion to say how truly touched and grateful I am for the spontaneous and universal outburst of loyal attachment and real affection which I have experienced on the completion of the Sixtieth year of my Reign.

During my progress through London on the 22nd of June, this great enthusiasm was shown in the most striking manner, and can never be effaced from my heart.

It is indeed deeply gratifying, after so many years of labour and anxiety for the good of my beloved Country, to find that my exertions have been appreciated throughout my vast Empire.

In weal and woe I have ever had the true sympathy of all my people which has been warmly reciprocated by myself.

It has given me unbounded pleasure to see so many of my subjects from all parts of the World assembled here, and to find them joining in the acclamations of loyal devotion to myself, and I would wish to thank them all from the depth of my grateful heart.

I shall ever pray God to bless them and to enable me still to discharge my duties for their welfare as long as life lasts.
